At SchoolhouseTeachers.com, our mission is to equip families worldwide with high-quality, self-paced homeschool resources grounded in a Biblical worldview. As the curriculum site of The Old Schoolhouse® Magazine, we offer your family 400+ courses for students in preschool through high school.

We know that every homeschool family is unique. Some of you know exactly what you want to teach and when. If that describes you, the best place for you to find the courses that meet your goals is on the Courses by Grade or Courses by Subject pages. If you are unsure what to teach when, then this resource is for you. Our Scope & Sequence resource will show you the academic goals traditionally held for each grade level and where to find that information on SchoolhouseTeachers.com as well as areas where you may wish to supplement.

Above all, please remember that one of the joys of homeschooling is not needing to be traditional in every area. You are welcome to use this resource as a tool, but please don’t ever make it a rigid set of rules to follow. You know your children best!

Our site is constantly adding material, so be sure to view our most up-to-date course listings on the site. If you have questions about this resource, please chat with us via the chat box or email Executive Editor Bonnie Rose Hudson at bhudson@theoldschoolhouse.com.

To learn more about SchoolhouseTeachers.com, visit us online and chat with us today!

Please note: The academic goals presented here are NOT aligned with any specific set of regulations or guidelines (including Common Core). Each family must determine their own state’s requirements. This scope and sequence is simply an overview of topics generally studied arranged in a grade-by-grade format that shows where Schoolhouse Teachers classes most naturally fit.
Preschool

Language Arts

- Color words
- Shapes
- Animals
- Recognize letters and their sounds
- Initial and final consonant sounds
- Speak clearly in complete sentences
- Listen to read-alouds of various genres
- Tell a story
- Rhyming words
- Listening comprehension
- Sequence a story
- Pencil grip
- Finger tracing and pencil tracking of lines: left to right, vertical, horizontal, diagonal, zig-zag, and curved lines

Numbers, Patterns, and Cognitive Skills

- Recognize numbers
- Count 1-30
- Sort and sequence
- Opposites and positional words
- Recognize and extend patterns
- Introduction to clocks and calendars: talk about and be familiar with units such as seconds, minutes, hours, days, weeks, and years
- Understand that zero equals nothing
- Understand more than/less than
- Put small number of objects in order by size
Preschool

Arts, Crafts, and Music

- Traditional songs
- Silly songs
- Follow directions
- Identify primary and secondary colors
- Understand results of combining colors
- Act out stories
- Create own artwork
- Simple puzzles
- Paste objects
- Trace or copy simple shapes
- Basic scissor skills (including cutting straight and curved lines on different texture papers)
- Clap and dance on beat/understand rhythm
- Fun with musical instruments
- Understand how to behave in an audience
- Eye-hand coordination
- Identify shapes

Science

- Observation
- Environment/neighborhood
- Seasons and animal/plant changes
- Animal families and homes
- Simple life cycles
- Identify common smells, tastes, and textures
- Experiments with weather

Preschool

Science (cont.)

- Know the difference between solids and liquids
- Identify body parts and their function

Manners and Healthy Habits

- Dress self with minimal assistance
- Use eating utensils correctly
- Ways to prevent spreading germs
- Washing hands
- Brush teeth
- Use tissues
- How to dial 9-1-1 and give a name and address
- Basic emergency procedures and how to get help
- Independence in appropriate bathroom needs
- Simple safety rules
Preschool

Motor Skills

It is imperative for preschool children to engage in activities that will build the muscles in their hands in preparation for writing. Using materials such as clothespins, eye droppers, tweezers, toothpicks, nuts/bolts, tongs, plastic bricks, play dough, peg boards, or paperclips can aid in strengthening those muscles. As always, be aware of any safety rules associated with those items and of possible choking hazards.

Gross Motor Skills

- Hop
- Skip
- Jump
- Action rhymes and songs
- Hop on one foot
- Jump/walk in a straight line
- Throw, catch, bounce, and kick a ball
- Climb stairs with alternate feet
- Walk backward
- Stand on one foot
- Dance and march
- Follow 2- to 3-step directions

Fine Motor Skills

- Build with blocks
- Snap fingers
- Drawing
- Cutting
- Glue/ paste small pieces of paper onto larger paper
- Bead threading
- Pouring materials from one container into another
- Manipulating puzzle pieces appropriately
- Lacing activities
- Button/unbutton
- Use a zipper
- Make a snake, pancake, and ball with play dough
Preschool

Social Studies

- Families and communities
- Recognize major US holidays
- Community helpers and transportation
- Know full name, gender, age, and birthday
- Know he/she is unique and special
- Recognize and express feelings
- Know address and phone number
- Draw maps of home and surroundings
- Pretend play
- Recognize US flag and bald eagle as patriotic symbols
- Understand concepts of past, present, and future

You can find all these resources plus more in our Preschool Playground.
Art and Music

Art and music are two important parts of an education that can be studied and explored in an endless variety of ways. Unlike math or science, the learning objectives for art and music cannot be as neatly quantified or defined. The main goal of art and music is to enjoy them and use them to glorify God. We have many great classes on SchoolhouseTeachers.com that can help you do just that!

If you’re interested in specific academic goals for art and music, you’ll find some general guidelines listed on the following pages. It is often most helpful if you naturally incorporate art and music into other subjects whenever possible (such as studying the art of ancient Egypt or the music of Russia alongside history and social studies).

Whenever possible, take field trips (either physical or virtual) with your children to explore art and music in a living, breathing way. Visit a museum, enjoy a musical performance, watch tradesmen in action, and dig in and try as many styles and techniques as you have time and the opportunity to enjoy!

Keep in mind as you explore art that it can cover a wide variety of techniques and media. It includes drawing and painting, but it also includes animation, architecture, casting, ceramics, computer graphics and applications, construction, dance or other creative movement, digital arts, drama (including mime, storytelling, and technical aspects of theater), drawing, film, graphic design, improvisational music, instrumental music, metal sculpture, mosaics, photography, printmaking, sculpture, textiles and fiber art, and much more.

Another integral part of art and music studies is reading biographies of famous artists and composers. You can find suggested reading lists about architecture, music, art, and art history in our Monthly Book Lists for Families section by Michelle Miller. Enjoy!
Art and Music

Art
• Promote and enhance fine motor skills with frequent and varied activities
• Continue to build recognition of shapes and colors
• Practice naming the different types of lines (thick, thin, straight, curved, wavy, zigzag, and broken) and practice recognizing them in pictures and drawings
• Practice recognizing patterns and textures
• Have fun with a variety of art projects using different media (pencils, crayons, chalk, moldable dough, etc.)

On SchoolhouseTeachers.com

Everyday Easels: twelve weeks of material
Learning About Art: ten lessons

Music
• Continue to enjoy traditional, patriotic, and age-appropriate songs
• Listen to many different types of music
• Learn what a piano, guitar, violin, trumpet, flute, and drum look like and sound like
• Continue practicing clapping and moving in time with the music
• Continue practicing how to behave properly in an audience

On SchoolhouseTeachers.com

Appreciating the Gift of Music: 18 lessons
SchoolhouseTeachers.com offers Music/Voice, Recorder, Guitar, Drum*, and Violin lessons that can be started at any grade. *Beginner Drum lessons are licensed through December 31, 2019, at which time we will work to renew the agreement.
Art and Music

1st-3rd Grade

Art

• Explore colors. Know the primary colors and how they are mixed to produce secondary colors. Understand intermediate colors. Understand the color wheel and learn about tints and shades.
• Start exploring elements of art including line, shape, texture, space, light, shadow, and value (lightness or darkness of a color) and start seeing how you can spot these in works of art. Understand foreground, middle ground, and background and how elements of art work together to create a focus or center of interest.
• Start becoming familiar with famous works of art by a variety of artists from a variety of time periods
• Understand the difference between portraits, still lifes, abstract art, and landscapes
• Draw a self-portrait
• Continue to experiment with many different types of media
• Begin learning to group paintings by artist

On SchoolhouseTeachers.com

Elementary Art-Lessons in Self-Portraits: five weekly lessons for 1st grade
All About Art: six weeks, 1st-3rd grade
All About Artists: six weeks (Unit Studies and More page) for 1st-3rd grade
Introduction to Colors: six lessons (Unit Studies and More page) in 1st grade
Elementary Art-Twelve Great Artists: 2nd grade
Achieving Art Success with ArtAchieve: Level I, 7 units each year of 2nd and 3rd grade; available through August 27, 2020, at which time we hope to renew
Elementary Art-Advent Art: 1st-3rd grade
Everyday Easels: eighteen weeks of material each year
Exploring the World of Art: three units (twelve weeks) for 3rd grade
(cont.)
Art and Music

1st-3rd Grade

On SchoolhouseTeachers.com

Let’s Do Art Outside: 20 outdoor arts and crafts projects for 1st-3rd grade
Our World Book Kids library includes fun art projects under Craft Room, Doodle and Design, and Paper Patterns. There’s also a webquest for 3rd graders about the pyramids.

In our Electives category, we also have Heritage Crafts (all ages), Photography (2nd-12th grade), and Hands-On Architecture (3rd-7th grade).
Art and Music

1st-3rd Grade

Music
- Become familiar with elements of music including rhythm, melody, harmony, pitch, dynamics, tempo, and timbre
- Know the definition of scale, staff, and treble clef
- Know the names of the lines and spaces on the treble clef
- Sing the C major scale (do, re, mi, fa, so, la, ti, do)
- Identify whole, half, quarter, and eighth notes and whole, half, and quarter rests
- Recognize and understand 4/4, 2/4, and 3/4 meter signatures and the symbols p, pp, f, and ff
- Enjoy and memorize traditional and fun songs
- Learn the four families of instruments in the orchestra (strings, brass, woodwinds, and percussion) and know which instruments belong to each
- Experiment with simple musical instruments
- Listen to music by various composers

On SchoolhouseTeachers.com

Music Theory I: sixteen weeks of the primary level in 1st, 2nd, or 3rd grade
Music Theory II: sixteen weeks of the primary level in 1st, 2nd, or 3rd grade
Music Mania: in the Unit Studies and More section
Great Musicians: twelve units for 1st, 2nd, or 3rd grade

Students may also enjoy the one-week Ditch the Desk study about Meaningful Music.
Our World Book Kids library includes fun music projects under Make Some Noise.

Additionally, SchoolhouseTeachers.com offers Music/Voice, Recorder, Guitar, Drum*, and Violin lessons that can be started at any grade. Fun with Music also offers games for music terminology review for 3rd-12th grade. *Beginner Drum lessons are licensed through December 31, 2019, at which time we will work to renew the agreement.
Art and Music

4th-5th Grade

Art
• Continue to explore and learn about the elements of art and learn to recognize them in many famous pieces of art
• Continue to experiment with as many different types of artistic media as you have the opportunity to try
• Learn to group paintings or artwork by style, subject, or artist
• Begin learning about basic styles of architecture and learn to define architectural terms such as column, dome, and arch
• Learn about careers in the arts

On SchoolhouseTeachers.com

Everyday Easels: eighteen weeks of material each year; this is an ideal time to use the sixteen-week Everyday Easels Passports unit, as it explores world architecture
Discovering Art History: 9 weekly lessons for either 4th or 5th grade
Achieving Art Success with ArtAchieve: Level II, 8 units each year; available through August 27, 2020, at which time we hope to renew

Computer and Technology

Suggestions regarding what computer and technology skills should be learned at each grade level vary widely. We have included below a list of the courses we have for these skills and the recommended grade levels for each class.

How to Use Microsoft Word: 8 weeks for 2nd-12th grade
Keyboarding: 10 lessons for 3rd-12th grade
LibreOffice Writer Basics: 50 lessons for 5th-12th grade
Web Game Design: 11 months (42 lessons) for 7th-12th grade
How to Get Started with Microsoft Excel Functions: five-part mini-unit for 7th-12th grade
Podcasting to Change the World: 6 units for 8th-12th grade
Internet Entrepreneurship for Teens: 24 weeks for 8th-12th grade
SQL Server Beginner Course: 18 weeks for 8th-12th grade

Plus a lesson on Exploring Geography with Google Earth by Andy Harris for 6th-12th grade and a roundup of technology websites and resources in our Unit Studies and More section.
Drama and Speech

Suggestions regarding what drama and speech skills should be learned at each grade level vary widely. We have included below a list of the courses we have for these skills and the recommended grade levels for each class.

**Reader's Theater**: 76 units for 3rd-6th grade  
**Simply Shakespeare**: more than a dozen plays for 3rd-9th grade (instructions given for single-child families)  
**In the Limelight**: study of a series of novels for 4th-10th grade (instructions given for single-child families)  
**How to Write and Produce a Play**: 29 weeks for 6th-12th grade  
**Introduction to Public Speaking**: 5 months for 8th-12th grade  
**Advanced Public Speaking**: 18 weeks for 8th-12th grade
Electives

We have included below a list of our elective courses and the recommended grade levels for each class.

Heritage Crafts: 8 units to be enjoyed as a family
Homesteading: dozens of topics to be enjoyed as a family
Whole Foods Cooking with Sue Gregg: 14 weeks to be enjoyed as a family
Home Economics: 23 weeks for K-4th grade; portions of this course are incorporated into the health scope and sequence for Kindergarten and 2nd grade
Breadmaking Devotional: 12 lessons for 1st-12th grade
Fun with Cooking: 28 lessons for 2nd-6th grade
Hands-On Design Fun: 41 lessons for 2nd-6th grade
Hands-On Learning Activities Through Crafts: ongoing series of units for 2nd-9th grade
Photography and Photography Challenge: 30 weeks plus 48 challenges for 2nd-12th grade
Hands-On Architecture: 27 weeks for 3rd-7th grade
Architecture (Introduction): 37 weeks for 6th-12th grade
Image Creation and Editing: 36 weeks for 6th-12th grade
Introduction to Graphic Design: 17 weeks for 6th-12th grade
Career Exploration: 8 weeks for 7th-12th grade
Filmmaking: 33 weeks for 7th-12th grade
Logic: 15 weeks for 7th-12th grade
Money 101: 7 weeks for 7th-12th grade
Social Justice: 16 weeks for 7th-12th grade
Personal Finance in Bite-Size Chunks: 21 lessons for 7th-12th grade
Starting a Micro Business (for Teens): 8 weeks for 8th-12th grade
Accounting 101: 18 weeks for 9th-12th grade
College Choice Guidance: 32 weeks for 9th-12th grade
High School Home Economics: 18 units for 9th-12th grade
SAT-ACT Math Test Prep: self-paced practice for 9th-12th grade
Leadership 101: more than 15 hours of videos and 600+ study questions for 10th-12th grade
Electives (cont.)

**Business Plan Creation**: 8 weeks for 11th-12th grade
You might also enjoy a four-week lapbooking unit for upper elementary and middle school all about the [History of Photography](#).
English Language Arts

Language arts is a broad heading that can incorporate many subjects depending on the approach taken. It varies from one curriculum to another, but often found under language arts are phonics/reading, reading comprehension, handwriting, literature, writing and composition, grammar, listening and speaking skills, and research skills.

One important element of language arts curricula is that the skills learned early in an education (such as capitalization and punctuation rules) are continually used throughout the student’s journey. Even if the specific skills are not repeated in this scope and sequence each year, it is understood that the student is to continue to use what he or she has learned previously, reviewing as necessary.

Reading:

When possible, have your student read as many varied types of materials as he or she can. For prekindergarten and kindergarten emerging readers, creating a print-rich environment is important. Manipulating letters to sounds and sounds to words are the building blocks for reading. At this level, everything is readable—cereal boxes, signs, traditional text, names, etc.

In first-third grade, types of reading to become familiar with might include fiction, nonfiction, legends, fables, folktales, fairy tales, poetry, calendars, recipes, and hymns. In 4th-5th grade, this can expand to include classic and contemporary literature, magazine articles, and newspapers. By 6th grade, readers should be exploring novels, short stories, biographies, autobiographies, plays, essays, and the classics.
Pre-Reading/Reading/Phonics

There are many approaches to teaching reading. SchoolhouseTeachers.com has taken the skills listed for K-2nd grade and assembled them in an easy-to-follow format in our Literacy Center. The Literacy Center will walk you through the steps to reading, give you simple assessments you can do for various skills, offer teaching tips and ideas, and link you to the appropriate lessons on SchoolhouseTeachers.com. Teaching Reading Through Play is also an excellent, stand-alone kindergarten course that provides key foundational skills and is especially helpful for the highly active child. Independent Morning Work for Kinders provides numerous worksheets for additional review and practice.
Pre-Reading/Reading/Phonics

Kindergarten

- Recognize and name all upper and lowercase letters (in and out of order)
- Follow words from left to right and top to bottom
- Recognize own name in print
- Recite the alphabet
- Match words that rhyme and produce more words in a word family
- Know the sound when given a letter and the letter when given the sound (for all consonants and long and short vowels)
- Match words/sentences with pictures
- Beginning phonics rules including one- and two-vowel words, consonant blends, r-controlled vowels, and plural words with -s
- Read simple words with short sequences of letters such as c-v-c (consonant-vowel-consonant) words
- Understand word families (c-at, m-at, b-at)
- Know age-appropriate sight words
- Identify beginning, ending, and middle sounds in a word

On SchoolhouseTeachers.com

You can find these resources in the Literacy Center on SchoolhouseTeachers.com.
Reading/Phonics

1st Grade

- Review of all sounds and blends learned
- Continue to build on phonics skills, learning skills such as recognizing the hard and soft c and g, silent consonants, silent e, and special phonics sounds
- Alphabetize words using the first letter only
- Learn about counting syllables
- Sound out one-syllable and two-syllable words
- Practice silent reading and reading aloud
- Identify and use contractions (such as aren’t, wasn’t, isn’t, and I’m) and convert them to their longer forms
- Know age-appropriate sight words
- Understand basic prefixes and suffixes

On SchoolhouseTeachers.com
You can find these resources in the Literacy Center on SchoolhouseTeachers.com.
Reading/Phonics

2nd Grade

- Continue to build reading fluency
- Recognize and understand synonyms, antonyms, homonyms, and compound words
- Alphabetize to the second and third letter
- Continue to build vocabulary and fluency
- Increase knowledge of sight words
- Know the meaning of common abbreviations
- Know special phonics sounds
- Increase knowledge of prefixes and suffixes

On SchoolhouseTeachers.com
You can find these resources in the Literacy Center on SchoolhouseTeachers.com.
Reading Comprehension

Kindergarten

The guidelines for kindergarten can apply to either stories your student reads independently or to stories that are read to him or her, depending on when your child begins independent reading. The main thing to do at this age is enjoy books together! Read to the student, read together (having the student read the words he or she knows), and talk about books and stories whenever you can. Some concepts to work on at this age regarding comprehension include:

- Predicting the outcome of a scene or story
- Answering questions about the story
- Putting events of the story in proper sequence
- Understanding the difference between fantasy and reality
- Identifying events, characters, and setting of a story
- Identifying the main idea of a story

On SchoolhouseTeachers.com

You can find these resources in the Literacy Center on SchoolhouseTeachers.com.
Reading Comprehension

1st Grade

- Draw conclusions based on the story
- Identify cause and effect
- Compare and contrast two elements of the story
- Identify the main characters, their traits, and their motives
- Answer questions such as who, what, where, when, and why about what they have read
- Answer true/false questions about what they have read
- Be able to orally summarize what they have read
- Know the meaning of plot, setting, characters, hero, and heroine and be able to identify them in what they have read

On SchoolhouseTeachers.com

You can find these resources in the Literacy Center on SchoolhouseTeachers.com.
Reading Comprehension

2nd Grade

- Understand and identify figurative language concepts of imagery, similes, analogies, rhyme, rhythm, repetition, alliteration, and onomatopoeia
- Identify how the main character changes during the story
- Identify the plot and point of view
- Look for the Biblical truth presented in stories
- Sharpen ability to identify cause and effect, make inferences, draw conclusions, and predict outcomes
- Begin differentiating between facts and opinions
- Find connections between a series of events, ideas, concepts, or steps in a text
- Compare and contrast different versions of the same story

On SchoolhouseTeachers.com

You can find these resources in the Literacy Center on SchoolhouseTeachers.com.
You may also enjoy Fun with Fairy Tales, 9 lessons for 2nd-4th grade.
Reading and Reading Comprehension

3rd Grade

- Continue to build reading fluency
- Begin the practice of taking notes on selected reading
- Explain how different characters view events differently
- Explain differences between the author or character’s point of view and the reader’s
- Understand how a character’s actions contribute to or advance the plot
- Describe how parts of a story, poem, or drama build on other parts
- Compare and contrast themes or ideas in two texts about the same topic or by the same author
- Be able to alphabetize to the third or fourth letter
- Understand the difference between biography and autobiography
- Continue to sharpen ability to identify cause and effect in a story
- Continue to develop ability to make inferences, draw conclusions, and predict outcomes
- Continue to develop understanding of how to identify character motives, plot, conflict, point of view, foreshadowing, idioms, personification, metaphor, simile, humor, sarcasm, and suspense in a story or poem
- Build knowledge of rhyme, repetition, alliteration, simile, and metaphor in poetry
- Introduce the limerick and quatrain as poetic forms
- Identify the author’s purpose as to persuade, inform, or entertain

You can find these resources in the Literacy Center on SchoolhouseTeachers.com.

You may also enjoy Fun with Fairy Tales, 9 lessons for 2nd-4th grade.

Don’t miss Lapbooking units that combine reading, writing, and critical thinking skills for multiple grade levels and the Monthly Book Lists for Families, which has book suggestions divided by grade level and topic.
Reading and Reading Comprehension

4th Grade

- Continue to practice taking notes on selected reading
- Learn to create an outline based on selected reading
- Learn about syllables—how words are divided into syllables, accent marks and shifts in accents, unstressed syllables, and syllable patterns
- Continue to sharpen ability to identify cause and effect in a story
- Continue to develop ability to make inferences, draw conclusions, and predict outcomes
- Continue to develop understanding of how to identify character motives, plot, conflict, point of view, foreshadowing, idioms, imagery, personification, metaphor, simile, humor, sarcasm, and suspense in a story or poem
- Recognize how a character changes throughout a story and what brings about this change
- Identify the mood of a story
- Learn about the use of hyperbole and exaggeration
- Introduce the haiku and sonnet as poetic forms
- Recognize dialect in a story
- Sharpen ability to distinguish fact from fiction
- Gather information from more than one source and be able to compare and contrast that information
- Learn to identify the influence the author’s background or motivation may have on the presentation of information
- Recognize key elements of various genres
- Read and identify characteristics of a tall tale, legend, and folk tale

Additional Reading Resources

Ditch the Desk: stand-alone units on Jack and the Beanstalk, the Emperor’s New Clothes, and writing your own fairy tale.
Growing Readers: activities to supplement Owls in the Family and Pippi Longstocking
Adventures with Books: suggested reading lists based on a theme and related activities you can do with your family to bring the stories to life
Ditch the Desk: Test Taking—Week 3 offers tips to make reading comprehension tests less stressful
Don’t the Monthly Book Lists for Families, which has book suggestions divided by grade level and topic.

You can find many more reading resources in the Literacy Center on SchoolhouseTeachers.com.
Spelling

Kindergarten-12th Grade

Schoolhouse Spelling provides a full K-12 spelling curriculum on SchoolhouseTeachers.com.

For extra spelling fun, explore the spelling-themed games that are part of the Everyday Games series.
Literature (5th-8th)

At this stage, the focus shifts from the student reading and comprehending what he or she has read to reading deeply and evaluating what he or she has read. As always, plenty of time for reading for pleasure should also be allowed. Don’t forget the Monthly Book Lists for Families, which has book suggestions divided by grade level and topic.

As you read through the objectives for each year, please keep in mind that many of the skills listed can be applied to almost any piece of literature. Talk to your students about what they are reading. Ask them why they feel a certain way about an answer. How did they reach the conclusion they came to? Turn the objectives into questions and ask them to write their responses. Don’t try to turn reading into nothing more than a formulaic analysis. There is a place for that, and it’s important for students to learn to think critically about what they are reading. But it is also important to let students get lost in a great story and swept up into a world bigger than the one they know. Make time for both, and you will both enjoy the journey more!
Literature

5th Grade

- Evaluate works of literature through discussion, debate, and written critique
- Explain how details in the text support main ideas
- Describe the theme of a literary text
- Describe how chapters, sections, scenes, or stanzas fit together in a text
- Explain connections between people, events, ideas, concepts, or steps in a text
- Describe how a narrator’s or writer’s point of view influences the text
- Compare, contrast, and analyze texts in the same genre or on the same topic
- Continue to develop critical and appreciative levels of reading comprehension
- Identify lesser characters and their motives, traits, growth, and change
- Understand the use of allegory in text
- Build on understanding of rhyme patterns in poetry
- Begin a study of selected Shakespeare plays, perhaps beginning with *A Midsummer Night’s Dream*

You may also enjoy reading about Shakespeare with Michelle Miller’s recommended reading list for *Shakespeare*. 
Literature

5th Grade
On SchoolhouseTeachers.com

Literature: In the Literature class taught by Adam Andrews, students can study setting, plot, theme, characters, literary techniques, motive, and more while they develop critical thinking skills and learn to evaluate literature. You can choose any combination of the studies below to customize your year. You’ll note that some of these books are below 5th grade reading level—that's OK! Completing a variety of the lessons below, regardless of the reading level of the books, is an excellent way to introduce your child to the skill of analyzing literature.

All the Places to Love by Patricia MacLachlan
Brave Irene by William Steig
The Cricket in Times Square by George Selden
Harriet, You’ll Drive Me Wild by Mem Fox
Miracles on Maple Hill by Virginia Sorensen
Story of Ferdinand by Munro Leaf
The Velveteen Rabbit by Margery Williams
“Eeyore Finds the Wolery” from The House at Pooh Corner by A. A. Milne

Apples to Oregon by Deborah Hopkinson
The Clown of God by Tomie DePaola
Fishing in the Air by Sharon Creech
Letting Swift River Go by Jane Yolen
The Relatives Came by Cynthia Rylant
Two Eggs, Please! by Sarah Weeks
Wilfrid Gordon McDonald Partridge by Mem Fox

Creative Composition: nine weekly lessons

Or, if you prefer a more hands-on introduction to analyzing literature, try these Literature Kits, Children’s Literature for Life, and Lapbooking units:

Literature Kits:
All of a Kind Family by Sydney Taylor
The Quiltmaker’s Gift by Jeff Brumbeau

Columbus by Ingri and Edgar Parin D’Aulaire
Where the Red Fern Grows by Wilson Rawls
Children’s Literature for Life:
Mama’s Bank Account by Kathryn Forbes

Lapbooking:
“The Bremen Town Musicians” by the Brothers Grimm
“The Walrus and the Carpenter” by Lewis Carroll
“O Captain! My Captain!” by Walt Whitman
“The Glorious Whitewasher” (from The Adventures of Tom Sawyer) by Mark Twain
“Rikki-Tikki-Tavi” (from The Jungle Book) by Rudyard Kipling

“Casey at the Bat” by Earnest Lawrence Thayer
“The Old Year” by John Clare
“A Bird Came Down the Walk” by Emily Dickinson

For an introduction to Shakespeare, including A Midsummer Night’s Dream, try Simply Shakespeare.
Literature

6th Grade

- Continue to develop critical and appreciative levels of reading comprehension
- Read and evaluate selected Caldecott and Newbery award winners
- Learn to compare and contrast characters and their roles
- Understand denouement
- Identify the purpose of flashbacks and cliffhangers in stories
- Recognize symbolism in stories
- Expand on the knowledge of the classics
- Evaluate works of literature through discussion, debate, and written critique
- Be able to take notes from a written work and develop an outline from them
- Expand on knowledge of poetry and be sure to understand meter, iamb, and free verse
- Pinpoint evidence in a text that supports the obvious and subtle messages of the text
- Describe how the plot of a work unfolds
- Analyze how specific word choices impact a text’s meaning and tone
- Analyze how a text presents information
6th Grade
On SchoolhouseTeachers.com

6th Grade is a fun time to become familiar with the Caldecott Medal and the Newbery Award and those who have won them. The Caldecott is awarded to the artist of the “most distinguished American picture book for children” and the Newbery Award is given to the author of the “most distinguished American children's book published the previous year.” There are studies of several of these winners on SchoolhouseTeachers.com which are listed below.

Caldecott Medal winners:

**Literature:**  
*The Biggest Bear* by Lynd Ward
*Sam, Bangs, and Moonshine* by Evaline Ness

*Since the Caldecott Medal is awarded to picture books, these books are below reading level, but the Literature study leads students through a thoughtful analysis of these two classics.

Newbery Award (winners and honor books):

**Literature:**  
*The Door in the Wall* by Marguerite de Angeli
*Misty of Chincoteague* by Marguerite Henry
*The Bronze Bow* by Elizabeth George Speare

**Literature Kits:**

*Island of the Blue Dolphins* by Scott O'Dell
*Charlotte's Web* by E.B. White

*Call It Courage* by Armstrong Wells Sperry

(cont.)
Children's Literature for Life:
Carry On, Mr. Bowditch by Jean Lee Lantham
Strawberry Girl by Lois Lenski
Bronze Bow by Elizabeth George Speare

Additional books that can be studied at this grade level include:

Literature: The Book of Three by Lloyd Alexander

Literature Kit: The Year of Miss Agnes by Kirkpatrick Hill

It is also an excellent time to introduce a deeper understanding of poetry in a fun, accessible way. Opening the Door to Poetry is a nine-week introduction to poetry specifically designed for the student who has not read much poetry in the past. It explores how to read and think about poetry, various poetic forms, vocabulary, literary devices, memorization, writing, and more. Exploring Poetry with Notebooking is a four-week exploration of understanding what poems are saying to us and how they make us feel. Each of the twenty poems are followed by notebooking exercises.

Additionally, you may wish to continue to expand on the classics with units from Simply Shakespeare.
Literature

7th Grade

- Compare and contrast two authors’ accounts of the same information
- Analyze the value and accuracy of primary and secondary sources on the same topic
- Expand on knowledge of works by prominent authors. Some suggested authors for this grade include Frost, Dickinson, Kipling, Bunyan, Alcott, Luther, Dickens, and Defoe.
- Expand on knowledge of the classics
- Continue to sharpen ability to analyze and evaluate works of literature through discussion, debate, and written critique. Take note of how elements of a story interact, how the theme or central idea is developed through a text, how the effect of specific words or tone affects the communication of the author’s message, and whether the author supports his or her claims with sound reasoning or evidence.

On SchoolhouseTeachers.com

Analyzing, Understanding, and Evaluating Literature: 36-week course

An excellent series of lessons to help with literary analysis is the set of seven Chronicles of Narnia studies in Literature (four of which have corresponding Literature Kits).

One study of a popular classic is the Literature lesson on Treasure Island by Robert Louis Stevenson.

Students can enjoy a unit study of Around the World in 80 Days in our Unit Studies and More section.

Additional works can be explored through the Lapbooking units for middle school listed below:

“The Cask of Amontillado” by Edgar Allan Poe
“Rip Van Winkle” by Washington Irving
“I Wandered Lonely As a Cloud” by William Wordsworth
“The Seven Stages of Man” from As You Like It by William Shakespeare

Because I Could Not Stop for Death” by Emily Dickinson
“The Most Dangerous Game” by Richard Connell
Literature

8th Grade

- Compare and contrast a fictional portrayal and an historical account of the same event or time period
- Expand on knowledge of works by prominent authors. Some suggested authors for this grade include Stu- art, Whittier, Longfellow, Hawthorne, and Sandburg.
- Expand on knowledge of the classics. Suggested works for this grade include Cyrano de Bergerac, A Tale of Two Cities, Animal Farm, The Good Earth, and Twelfth Night.
- Be familiar with dramatic elements including farce, satire, soliloquies, and asides
- Be able to dramatize a reading selection
- Research a certain aspect (scientific, historical, geographical) of a book
- Write a critical essay in response to a reading
- Compare and contrast tragedy and comedy
- Analyze if a movie or live performance is true to the text

On SchoolhouseTeachers.com

Elements of Literature: 36-week course

Literature: The Hobbit by J.R.R. Tolkien

Fundamental Elements of Literature and Composition: 16-week course for 7th-9th grade (this course is also listed under 7th-12th Grade Writing and Composition)

Additional works can be explored through the Lapbooking units for middle-high school listed below:
J.R.R. Tolkien: Influences From His Early Life
“To Autumn” by John Keats

Additionally, you may wish to continue to expand on the classics and practice the ability to dramatize a reading selection with units from Simply Shakespeare and In the Limelight (which includes a study of Cyrano de Bergerac). These units also give students an opportunity to research certain aspects of a book or play.
Literature (9th-12th)

High school literature is often based around themes or historical time periods or regions. An emphasis on reading with a sense of history and critical evaluation and response to what is read is generally stressed. It is also good to be aware of prospective colleges’ recommended reading lists and incorporate texts from these lists when appropriate.

Currently, SchoolhouseTeachers.com offers two tracks for Literature in this scope and sequence, but as with all classes on our site, you may choose to do any class at any time. These are simply two options to consider.

Our World Book Advanced library offers Pathfinders for advanced students interested in independent study. The Pathfinder “Literature” explores types of literature, movements in literature, and the literature of many nations of the world. The Pathfinder “Poetry” explores the lives of numerous famous poets from around the world, famous poems, and forms of poetry.
Literature

9th Grade (Traditional)

- Suggested authors for this grade include Hale, Tolstoy, O. Henry, Hawthorne, Alcott, a Kempis, Longfellow, and Shakespeare
- Suggested classics for this grade include *Romeo and Juliet* or *Anthony and Cleopatra*

On SchoolhouseTeachers.com

**Exploring Literature:** thirty-six weeks

**Literature:** *At the Back of the North Wind* by George MacDonald

**Reflecting on Poetry** in the Unit Studies and More section is a basic introduction to analyzing poetry.

Continue to use the critical analysis skills learned in previous literature studies by applying them to the titles of the student’s choice (see suggested authors above).
Literature

9th Grade (Advanced)

Literature with a focus on American literature.

- Suggested authors for this grade include Melville, Longfellow, Whittier, Dickinson, Sandburg, Frost, and Bryant
- Suggested classics for this grade include *Moby Dick, Ben-Hur, and The Scarlet Letter*
- The history of American literature should also be explored including early American literature, American romanticism, American realism and naturalism, and modern American literature.

On SchoolhouseTeachers.com

[American Literature in Historical Context](#): 36 weekly lessons
[Reflecting on Poetry](#) in the Unit Studies and More section is a basic introduction to analyzing poetry.
Literature

10th Grade (Traditional)

Literature in 10th grade is often focused on world literature from classic to contemporary with a careful evaluation of worldview. Works can be studied in chronological order or studied by region.

- Suggested authors for this grade include Dickens, Browning, Millay, Holmes, Poe, Doyle, Yeats, Tolstoy, Herbert, Homer, Aesop, Virgil, Foxe, Luther, Milton, Bunyan, Newton, and Machen
- Suggested classics for this grade include *Silas Marner*, *Henry V*, *The Taming of the Shrew*, and *Antigone*

On SchoolhouseTeachers.com

*World Literature and Cultures*: thirty-six weekly lessons  
*High School Literature from a Biblical Perspective*: thirty-six weeks  
*Literature*: *The Odyssey* by Homer  
*Literature*: *Julius Caesar* by William Shakespeare

The *Writing* unit on “Three Questions” by Leo Tolstoy helps students analyze this folk tale.
Literature

10th Grade (Advanced)

Literature with a focus on British literature.

- Suggested authors for this grade include Wordsworth, Scott, Coleridge, Burns, Tennyson, Bunyan, and Shakespeare
- Suggested classics for this grade include *Robinson Crusoe*, *Macbeth*, *Othello*, *Hamlet*, *The Pilgrim’s Progress*
- Additional suggested classics for this grade that students should be familiar with key portions of include *Beowulf*, *Canterbury Tales*, and *Paradise Lost*
- The history of British literature should also be explored, including key developments in the following periods: Anglo-Saxon, Medieval, Elizabethan, Puritan, 18th century, Romantic, Victorian, and modern

On SchoolhouseTeachers.com

- **Literature**: *A Tale of Two Cities* by Charles Dickens
- **Literature**: *The Great Divorce* by C.S. Lewis

- **Selected Works of Charles Dickens**: 18-week advanced high school literature course that examines five classic Charles Dickens works as well as a biography of the author

- **High School British Literature**: 36-week course that takes an in-depth look at key periods in the history of British literature from Old English and medieval through modern and postmodern

Continue to use the critical analysis skills learned in previous literature studies by applying them to the titles of the student’s choice (see suggested authors above).
Literature

11th Grade (Traditional)

Literature in 11th grade is often focused on American literature.

- Suggested authors for this grade include Melville, Longfellow, Whittier, Dickinson, Sandburg, Frost, and Bryant
- Suggested classics for this grade include *Moby Dick*, *Ben-Hur*, and *The Scarlet Letter*
- The history of American literature should also be explored including early American literature, American romanticism, American realism and naturalism, and modern American literature.

On SchoolhouseTeachers.com

- **American Literature in Historical Context**: 36 weekly lessons
- **American Folklore**: 26-week introduction to both folklore as a general subject and our own national treasury of folklore
- **African American Literature**: 18-week advanced high school literature course for students wishing to explore African American literature from the time of the North American slave narratives to modern plays and playwrights

Continue to use the critical analysis skills learned in previous literature studies by applying them to the titles of the student’s choice (see suggested authors above).
Literature

11th Grade (Advanced)

• Advanced literature study

**Worldviews in Literature**: 18-week advanced literature study that examines worldviews and how they manifest themselves in literature
Handwriting (K-3rd)

Kindergarten

Kindergarteners continue to build on the prewriting skills they've learned previously. They need to know how to hold and position paper and pencil, how to form their letters, and generally how to align and space their letters. They need to be able to print all the letters of the alphabet in upper and lower case, print their first and last names, and write simple words.

On SchoolhouseTeachers.com

Beginning Handwriting covers topics such as pencil grip, prewriting skills, letter formation, and tips and tricks for remembering which letter is which.

1st-2nd Grade

Handwriting in first grade focuses on improving the legibility of printed letters, words, and sentences. Spacing and alignment should gradually improve during this time.

3rd Grade

Cursive handwriting is often introduced in third grade.

On SchoolhouseTeachers.com (for 1st-3rd Grade)

Everyday Copywork brings your student penmanship practice, in both print and cursive, through copying Bible portions, excerpts of literature, historical selections, and much more. There are many different lengths, and the copywork varies in difficulty, so it is suitable for many ages. You will also find alphabet worksheets for the little ones who are just learning to print.
Writing and Composition

We encourage you to incorporate writing in as many subjects as you can. Students can write recipes, create historic journals, write instructions for how to program a computer, keep a journal, etc. The possibilities are endless and do not need to be confined to a portion of a language arts curriculum.

- **Sparking the Noggin: Creative Writing with Pictures** is a fun encouragement for writers in 4th-7th grade, and
- **Into the Elements** is a 3-hour video course for 6th-10th grade about sharing life-changing truth by learning the storytelling lessons the Bible teaches.

Please note: The focus of the writing and composition section of this scope and sequence is on creativity and composition, not the physical act of writing. If your child struggles with the physical act of writing, please take a look at Judi Munday’s [Special Needs Lessons 15 and 16](#) for alternative ways you can help your child express his or her thoughts.
Writing and Composition

Kindergarten

Since handwriting is still a developing skill at this stage, the focus here is more on creativity and composition. Encourage students to dictate sentences they compose and complete sentence starters you give to them. Spelling should not be corrected at this time. Students should be encouraged to “spell it as it sounds” to promote sound discrimination in words.

1st Grade

Students should practice completing sentences, short stories, and rhymes that they are given. They should practice writing descriptions of things they see or experience. They should practice creative writing by creating journal entries, stories, poems, newspaper articles, letters, or anything else they enjoy. They should also be gently introduced to the concept of the writing process—formulating ideas, writing a draft, revising and editing a draft, and creating the final piece. This should be done very naturally at this stage without causing the young writer stress or worry.

On SchoolhouseTeachers.com

Formal writing classes are not offered for these grade levels, as natural integration of creativity and composition is encouraged for this age.
Writing and Composition

2nd Grade

Students should practice writing a response to something they have read, rewriting a scene from a different point of view, or writing alternate endings to stories. Encourage your student to start thinking about what they've read and reacting to it. This will set the stage for more critical literary analysis as they mature.

Help students learn different ways to construct their stories. Introduce them to the brainstorming part of the writing process with graphic organizers such as word webs, time-order charts, story maps, senses charts, and note cards. No two children are alike, so help your child find the best vehicle to get his or her thoughts together for a story or assignment.

Help students learn to proofread their work and make necessary revisions. This is also a good time to begin introducing basic proofreading marks.

Encourage children to write creatively and in complete sentences. They should begin learning how to write friendly letters (with the proper format), envelopes, postcards, thank you notes, book reports, short stories, simple research reports, and basic poems (such as couplets or shape poems). A few of the many other things they could consider writing at this age are personal narratives, instructions about how to do something, make-believe stories, descriptions, and journal entries. Stories should include details, properly sequenced events, and a conclusion.

You'll find a library of graphic organizers in our World Book libraries.
Writing and Composition

2nd Grade

On SchoolhouseTeachers.com

**Little Language Arts:** Unit 1 (Lessons 1-5) teaches students how to write a variety of simple types of poems

**Ditch the Desk:** stand-alone units on becoming an author/illustrator, Jack and the Beanstalk, the Emperor’s New Clothes, writing your own fairy tale, and banishing boring book reports

**Adventures in Writing:** wild and wacky introduction to the world of writing

**The Writing Process:** This unit is part of our Unit Studies and More section. It explains the key steps in writing and revising, which are important to become familiar with at a young age. This unit is written for the parent, not the student, so it is important to guide your child through becoming familiar with these concepts and show them examples in their own work.

Our **World Book Kids library** includes lesson plans about syllable poems, fairy tales, tongue twisters (alliteration), and shape poems under Write It Down.
Writing and Composition

3rd Grade

In addition to the graphic organizers such as word webs, time-order charts, story maps, senses charts, and note cards, expand your student’s tools for brainstorming by teaching him or her to create opinion charts, plot pyramids, and Venn diagrams.

Help your student continue to build his or her proofreading and revising skills.

To the couplets and shape poems already introduced, add similes, rhyming riddles, and alliterative phrases to your student’s knowledge of poetry.

Students should learn to write short research reports, including learning to use proper paragraph structure, using transitional words and phrases to connect ideas, and gathering information from print and digital sources. Reports should state a topic or purpose, supply relevant facts and reasons, and present a conclusion.

Students should write short stories that include dialogue and description that helps develop characters and events, that put events in the proper order, and that provide a conclusion.

Students should continue to explore a wide variety of writing assignments including stories, personal narratives, poems, essays, reports, journals, book diaries, family newsletters, game instructions, personal letters, realistic fiction, book reports, sound poems, news articles, descriptive paragraphs, plays, and tall tales.

On SchoolhouseTeachers.com

Elementary Writing with Structure: 36 weekly lessons
Little Language Arts: Lessons 18-19 explore writing descriptive sentences and paragraphs
Writing and Composition

4th Grade

In addition to the graphic organizers already used, expand your student’s tools for brainstorming by teaching him or her to create character webs, event/details charts, T-charts, and outlines.

Students should learn to format and write a bibliography, persuasive pieces such as business letters and essays, and compare/contrast essays.

Students should write book reviews, create similes and metaphors, write haikus and acrostic poems, and learn to conduct and write an interview.

Students should continue to develop their skills for writing strong paragraphs and write multi-paragraph compositions that include introductory, supporting, and concluding paragraphs, each with proper indentation and topic sentences.

Fourth grade offers a good chance to learn keyboarding/typing skills if they have not been learned previously.

Students should continue to explore a wide variety of writing assignments including stories, personal narratives, poems, essays, research reports, journals, family newsletters, book reports, magazine articles, and small books.

Students should include an appropriate amount of dialogue and description in their writing.
Writing and Composition

4th Grade

On SchoolhouseTeachers.com

**Expanding Your Writing Skills**: 9-week study of various writing skills and techniques

**Creative Storytelling**: 15-week introduction to various types of writing

**How to Write a Research Paper**: stand-alone unit in the Unit Studies and More section

**Little Language Arts**: 35 weekly lessons giving a strong foundation in writing skills

SchoolhouseTeachers.com also offers a [Keyboarding](#) class for interested students.
Writing and Composition

5th Grade

Be able to use a multi-step writing process, involving prewriting, writing a first draft, revising, editing, and writing a final version of a work.

Students should continue to create the forms and creative pieces studied previously and learn to write speeches, diamantes, sense poems, character sketches, summaries, advertisements, news articles, biographies, and fables.

Students should continue to develop their skills for writing strong paragraphs and write multi-paragraph compositions that include introductory, supporting, and concluding paragraphs, each with proper indentation and topic sentences.

On SchoolhouseTeachers.com

Discovering Poetic Elements: eight weekly lessons
Paragraphs, Poetry, and Prose: Elementary Writing: 24-week study
Crafting Fiction: seven weekly lessons

Our Writing class includes three units that study fables and how to write an original one:

- “The Ant and the Grasshopper” by Aesop
- “Happy Prince” by Oscar Wilde
- “The Mice in Council” by Aesop

If students are not yet familiar with the writing process, the stand-alone unit The Writing Process in our Unit Studies and More section explains the key steps in writing and revising. Writing diamantes and advertisements are covered in classes for other grade levels.
Writing and Composition

6th Grade

Increasingly, writing and composition assignments are going to become an integrated part of other subjects such as history, social studies, and science. Students should learn how to write informative, explanatory, or persuasive pieces that are supported with clear reasons and relevant evidence.

Students should learn about the use of anaphora, allusion, irony, and understatement in poetry and prose. They should be well acquainted with devices of style such as imagery, hyperbole, theme, irony, pun, point of view, and figurative language.

Students should learn about dishonest tactics used in persuasion, how to recognize them in material they read or hear, and how and why to avoid them in their own writing.

Students should be able to tailor their writing to a chosen audience or purpose—academic, personal, or business.

On SchoolhouseTeachers.com

Essay Writing 101: begins with a look at the writing process and then continues with a study of common essay forms including expository, biographical, descriptive, personal experience, eyewitness report, and cause and effect

Logic: 15-week study helps students learn to analyze statements, advertisements, and arguments and to identify faulty reasoning contained in each

Creating Dynamic Characters: helps students create memorable characters in fiction

Paint With Your Words: will help students change passive writing into active writing

Exploring Creative Writing: 16 weeks

Introducing the Many Faces of Poetry: 21 weeks of bite-sized lessons (cont.)
Additionally, the following Writing and Classics-Based Writing units explore specific literary devices:

- “The Wild Swans at Coole” by William Butler Yeats (imagery)
- “The Alarming Spread of Poetry” by P.G. Wodehouse (hyperbole)
- “The Pumpkin” by John Greenleaf Whittier (allusion)
- “The Two Frogs,” traditional Japanese folktale (irony)
- “A Plea for Indoor Golf” by P.G. Wodehouse (humor)
- “A Resignation” by Bill Nye (humor)
- “Daffodils” by William Wordsworth (personification)
- “Casey at the Bat” by Ernest Thayer (comic poem)
- Country of the Pointed Firs by Sarah Orne Jewett (description)
- “Written in March” by William Wordsworth (personification)
- “To Autumn” by John Keats (use of vivid words and rhyme)
- Classics Based Writing: Mark Antony’s Funeral Oration from Julius Caesar (irony)
Writing and Composition

7th-12th Grade

In junior high and high school, writing is an integrated part of most subjects. Some students may wish to focus on writing classes tailored to a specific interest such as playwriting or fiction writing. This is also the time when some students enjoy exploring the history of the English language as it has changed over the centuries. In addition to developing and polishing their writing skills with cross-curricular assignments, students also should learn:

- to write a letter to the editor
- to appropriately cite quotations and sources
- to paraphrase material while avoiding plagiarism
- to be familiar with word processing/publishing software
- to assess the credibility and accuracy of sources
- to use parallelism in their writing where appropriate
- to write webpages and blog posts
- to write a resume
- to write an analytical essay
- to write an interior monologue for a character
- to create and deliver a multimedia presentation

A large number of writing and composition topics are explored in the following classes, though depending on the classes chosen and the interests of the student, you may wish to add writing a specific type of piece such as a letter to the editor or blog posts.
Writing and Composition

7th-12th Grade

On SchoolhouseTeachers.com

Writing On This Day In History: collection of history-themed writing prompts for every day of the year; designed for 7th-10th grade

Words and What to Do With Them: 9 weeks for students who want to learn what to do with what they've written

Benjamin Franklin Writing Method: 24-week course that helps your 7th-12th grade student improve their writing skills using the same method employed by Benjamin Franklin—imitating the masters

Experiencing Epics and Poetry: 18-week course for 7th-8th grade

Creative Writing: 24-week course to help your 6th-9th grade student learn modern fiction writing techniques and move their work toward publication

Writing: Advertising Copy: short three-week course that helps students in 7th-12th grade incorporate the methods used in advertising in their own writing and identify those methods when they see them in advertising they read

Writing: Compare and Contrast: 10-week mini-course that will help students in 7th-12th grade learn the fine art of comparing and contrasting in what they write

The Writing Life: Learn to Write Well: 34-week course for 9th-12th grade that teaches various types of writing including fiction, newspaper, reports, magazine articles, and more

Writing: College Admission Essay: 2-week mini-course that helps juniors and seniors prepare for and write the college admission essay

Fundamental Elements of Literature and Composition: 16-week course for 7th-9th grade (this course is also listed under 8th Grade Literature)

Writing units that would complement a 10th grade world literature class:

- “Three Questions” by Leo Tolstoy
- Around the World in Eighty Days by Jules Verne
- “Daedalus and Icarus” by Ovid and Bulfinch
- History of the Decline and Fall of the Roman Empire by Edward Gibbon

(cont.)
Writing and Composition

7th-12th Grade

On SchoolhouseTeachers.com (cont.)

Writing and Classics-Based Writing units that would complement a 11th grade American literature class:
- “A Message to Garcia” by Elbert Hubbard
- “Paul Revere’s Ride” by Henry Wadsworth Longfellow
- “Whistle” by Benjamin Franklin
- Moby Dick by Herman Melville
- “I Hear America Singing” by Walt Whitman
- “Hearts and Hands” by O. Henry
- Little Women by Louisa May Alcott
- Classics-Based Writing: “To a Locomotive In Winter” by Walt Whitman
- Classics-Based Writing: Condolence Letter to Mrs. Bixby by Abraham Lincoln
- Classics-Based Writing: Declaration of Independence by Thomas Jefferson

Writing and Classics-Based Writing units that would complement a 12th grade British literature class:
- “The Slavery of Free Verse” by G.K. Chesterton
- “How They Brought the Good News from Ghent to Aix” by Robert Browning
- “Sonnet VII: How Soon Hath Time, the Subtle Thief of Youth” by John Milton
- “On First Looking Into Chapman’s Homer” by John Keats
- “Advent” by Christina Rossetti
- “The Fly” by William Blake
- “The Wind and the Moon” by George MacDonald
- “The Seven Ages of Man” from As You Like It by William Shakespeare
- “To Winter” by William Blake
- “The White Ship” by Dante Gabriel Rossetti
- Classics-Based Writing: “Easter Wings” by George Herbert
- Classics-Based Writing: “Daffodils” by William Wordsworth
- Classics-Based Writing: Bleak House by Charles Dickens
- Classics-Based Writing: “Shall I Compare Thee to a Summer’s Day” by William Shakespeare
(cont.)
Writing and Composition

7th-12th Grade

On SchoolhouseTeachers.com (cont.)

Additional Writing and Classics-Based Writing units for 7th-12th grade cont.:
- “September 1918” by Amy Lowell
- “A Leak in the Dike” by Phoebe Cary
- Classics-Based Writing: “Opportunity” by Edward R. Sill
- Classics-Based Writing: “Death Comes for the Archbishop” by Willa Cather
- Classics-Based Writing: Limericks by various authors
Additional Writing and Composition Resources

**Writing Mechanics**: six-month course for elementary students designed to strengthen writing by improving one sentence at a time

**Ditch the Desk**: Test Taking—Week 1 offers tips to make writing tests less stressful for elementary students

**Daily Writing**: more than 1,500 writing prompts to encourage creativity, thinking skills, and writing skills for students in 4th-12th grade

**Writing On This Day In History**: collection of history-themed writing prompts for every day of the year; designed for 7th-10th grade
Grammar

1st Grade

First graders need to learn:

• basic rules of capitalization such as capitalizing the first word in a sentence, proper names, the pronoun I, days of the week, and months of the year
• a sentence starts with a capital letter and ends with punctuation, either a period, question mark, or exclamation point
• commas are used in dates and in series, and apostrophes are used in contractions and possessives
• the job of nouns, verbs, and adjectives
• how to make a complete sentence
• synonyms (same meaning words), antonyms (opposites), and homonyms (same sound words)
• adding s to regular nouns to make them plural
• an introduction to what syllables are
• the idea of comparative and superlative words
• how words use suffixes and prefixes
• what a compound word is

On SchoolhouseTeachers.com

Daily Grammar: 1st Grade: 108 daily lessons

Additionally, you may enjoy:

Little Language Arts: Lessons 14, 16, and 17 discuss nouns, pronouns, adjectives, and adverbs

Students can even have fun reading about grammar! Check out the Monthly Book Lists for Families all about Spelling and Grammar.
Grammar

2nd Grade

In building on what has been previously learned, second graders need to also learn:

• to use capital letters when referring to special people, places, holidays, product names, book titles, abbreviations, initials, and geographic names
• sentences have a subject and predicate
• how to identify incomplete sentences
• the types of sentences (declarative/telling, interrogative/question, imperative, and exclamatory) and which punctuation mark to use at the end of each
• commas in dates, series, and addresses
• continue to expand knowledge of synonyms, antonyms, homonyms, rhyming words, and compound words
• what a contraction is and how to use the apostrophe correctly to form one
• different types of nouns (common, proper, singular, plural, possessive) and how to make regular nouns plural (the –s and –es rules)
• different types of verbs (action and linking) and their basic tenses (past, present, and future)
• past tense of common irregular verbs
• the job of an adjective and how to use comparatives and superlatives
• the job of a pronoun and the word it references
• common abbreviations
• how to avoid double negatives
• the basic job of an adverb
• about subject/verb agreement
Grammar

2nd Grade

On SchoolhouseTeachers.com

Daily Grammar: 2nd Grade: 73 daily lessons

Additionally, there are a large number of Everyday Games: Reading that reinforce many of these skills. Students can even have fun reading about grammar! Check out the Monthly Book Lists for Families all about Spelling and Grammar.
Grammar

3rd Grade

In building on what has been previously learned, third graders need to also learn:

- to correctly use collective nouns
- the job of helping verbs
- the use of articles
- to form the plural of regular and irregular nouns
- reflexive, subjective, objective, and possessive pronouns
- the job of adjectives and the rules governing their use
- the job of adverbs and the rules governing their use
- compound sentences
- sentence parts including simple, compound, and complete subjects and simple, compound, and complete predicates
- basic diagramming
- more work with contractions
- how to use quotation marks and properly punctuate dialogue
- to work with apostrophes regarding contractions and possessive nouns

Students can even have fun reading about grammar! Check out the Monthly Book Lists for Families all about Spelling and Grammar.
Grammar

9th-12th Grade

In many curriculums, grammar ceases to be focused on as a separate topic in high school. The grammar rules learned in previous years are incorporated with high school writing during these times.

On SchoolhouseTeachers.com

Daily Grammar: 9th Grade: 16 weekly worksheets that review grammar skills and practice diagramming

Students can even have fun reading about grammar! Check out the Monthly Book Lists for Families all about Spelling and Grammar.
Listening and Speaking Skills

Kindergarten

- Follow one- and two-step oral directions
- Retell familiar stories
- Invent and tell stories
- Put ideas in sequence after hearing a story
- Speak clearly and at the appropriate volume
- Memorize short, simple rhymes, poems, and Scripture
- Complete action rhymes
- Portray a character from a story

On SchoolhouseTeachers.com

You can find resources for retelling and sequencing stories in the Literacy Center on SchoolhouseTeachers.com. Additional skills such as memorizing rhymes are included in Fun with Memorization.
Listening and Speaking Skills

1st Grade

- Listen to, restate, and follow two- and three-step oral directions
- Read aloud to others
- Creatively reenact stories
- Memorize and recite short poems, rhymes, and Scriptures
- Listen for enjoyment to many kinds of stories, poems, nursery rhymes, folktales, etc.
- Listen to stories for comprehension, interpreting and answering questions about what the student has heard
- Dictating words, phrases, and sentences for someone to write down
- Describe an experience or share an idea

On SchoolhouseTeachers.com

Beginning Listening & Speaking Skills: 30 daily activities (6 weeks)

Additionally, you can find resources for listening for enjoyment and comprehension in the Literacy Center on SchoolhouseTeachers.com.
Listening and Speaking Skills

2nd Grade

- Communicate the message of the author, the meaning and mood of the story, and the characters and emotion in a story
- Respond to punctuation when reading aloud
- Read aloud with expression
- Give short reports based on facts from multiple sources
- Present an oral book report
- Take a phone message
- Convey dialogue when reading aloud
- Memorize and recite age-appropriate poems
- Exhibit proper fluency when reading aloud

On SchoolhouseTeachers.com

Reader’s Theater and Simply Shakespeare in the Drama and Speech category give students excellent opportunities to practice their speaking skills. Banishing Boring Book Reports in Ditch the Desk offers creative ways to deliver book reports. A fun way to practice giving a short report is the Biography project in Unit 3 of Little Language Arts.
Listening and Speaking Skills

3rd Grade

- Continue to build fluency and confidence in delivering information orally to individuals
- Learn to make an introduction
- Practice delivering short dramatizations
- Memorize and recite age-appropriate poems

On SchoolhouseTeachers.com

Reader’s Theater and Simply Shakespeare in the Drama and Speech category give students excellent opportunities to practice their speaking skills.
Listening and Speaking Skills

4th-12th Grade

Once the foundation for good speaking skills is laid, there is no end to where a student may go with it. It is good practice for the student to deliver a portion of his or her work orally, whether it be a book report, a play, or the recitation of poetry using clear diction, making appropriate eye contact, and speaking at an appropriate volume. As students get older, it is important they learn to not only give but also analyze oral presentations by drawing conclusions, asking questions, and critiquing messages for bias, fallacies, opinion cited as fact, and unsupported generalizations. They should also practice taking coherent notes from an oral presentation.

On SchoolhouseTeachers.com

See the complete list of classes on SchoolhouseTeachers.com designed to help students sharpen their skills and gain confidence in speaking in our Drama and Speech category.
Research Skills

Kindergarten-2nd Grade

- Learn to identify the parts of a book: cover, title, title page, author, and illustrator
- Read a color key
- Find information using the table of contents, chapter headings, index, or glossary
- Understand the main difference between books that tell stories (fiction) and books that share information (nonfiction)
- Beginning dictionary skills including using guide words, understanding alphabetical order, learning about the parts of an entry, and using them to find definitions and check spelling
- Learn the basics of what a thesaurus is and how to use one to find synonyms and antonyms

On SchoolhouseTeachers.com

Several of these skills are covered in the SchoolhouseTeachers.com Literacy Center.

**Little Language Arts:** Unit 8 (Lessons 32-35) teaches students how to use common reference books; Unit 3: Lesson 10 introduces nonfiction writing

**Ditch the Desk:** stand-alone unit on becoming an author/illustrator
Research Skills

3rd-6th Grade

• Become comfortable using a thesaurus and encyclopedia
• Become comfortable using a dictionary, understanding the usefulness of multiple definitions, sample sentences, etymology, and the pronunciation key
• Be familiar with how to use the library, including the Dewey Decimal system and the electronic catalog
• Be able to use a Bible concordance and cross references
• Be able to use a newspaper to gather or find information
• Understand how to use a timeline
• Differentiate between primary and secondary sources

On SchoolhouseTeachers.com

Research Skills: six-week unit designed to help students in 6th or 7th grade brush up on research skills including using a dictionary, library skills, writing a bibliography, checking the accuracy of online information, and writing a proper citation

How to Do Research: unit for 4th-8th grade

Navigating the World of Research: 9 weeks for 3rd-6th grade

Our World Book libraries include multiple research tools for students including a kids dictionary, a How to Use the Dictionary guide, a standard dictionary, a How to Do Research center, a citation builder, and a visual dictionary.
Health

Every curriculum approaches health a little differently. Some incorporate it with science from the very beginning. Some incorporate it with science and anatomy in higher grades. You may enjoy Michelle Miller’s Monthly Book Lists for Families selection for Healthy Reads! Famous Doctors, Nurses, and Researchers. Below, you will find an outline of some suggested health topics to incorporate each year.

You’ll find in-depth information about how to determine your child’s fitness goals and guide them on their way to developing and maintaining a healthy lifestyle in our Physical Education Center, where we have material for all ages. We’ll also help you set goals such as:

- Engaging in physical activity with competence and confidence
- Experiencing physical activity in a variety of environments
- Understanding the importance and benefits (physical, emotional, social) of a lifestyle that includes physical activity
- Incorporating regular physical activity into your family’s lifestyle
- Achieving and maintaining physical fitness
Health

Kindergarten

Understand that good nutrition, the right amount of sleep, hygiene, and exercise are important for our health.

On SchoolhouseTeachers.com

Home Economics: Weeks 1-4 incorporate these topics.
Kindergarten Health: six weeks

Additionally, SchoolhouseTeachers.com offers Nourishing Nuggets, Family Nutrition, and Family Fitness classes that are designed to be done as a family with adaptations for children of any age.

1st Grade

Continue learning why good nutrition and hygiene, and the right amount of sleep and exercise, are important for your health. Learn how to take care of your teeth, how to have good posture, and how to take care of your body, clothes, and home. Learn how to stay safe at home and away from home (Stranger Danger, on the playground, etc.). Understand how to use good manners at home and in public.

On SchoolhouseTeachers.com

Growing Healthy in First Grade: 9 weekly lessons

Students may also enjoy Learning Ladders—Play Sports, a stand-alone eBook in our Unit Studies and More section

Additionally, SchoolhouseTeachers.com offers Nourishing Nuggets, Family Nutrition, and Family Fitness classes that are designed to be done as a family with adaptations for children of any age.
Health

2nd Grade

In addition to reviewing what has already been learned, learn about the food groups and the USDA’s MyPlate recommendations and what they mean. Learn how keeping clean helps stop the spread of germs. Understand how to stay safe during bad weather. Continue to learn and practice good manners at home, away from home, at the table, and on the telephone.

On SchoolhouseTeachers.com

Growing Healthy in Second Grade: 9 weekly lessons
Home Economics: Weeks 9-11 and 16-19 discuss nutrition and a balanced diet. They do not specifically address food groups.
Good Food for You: eBook in the Unit Studies and More section discusses food groups, nutrition, and more

Additionally, SchoolhouseTeachers.com offers Nourishing Nuggets, Family Nutrition, and Family Fitness classes that are designed to be done as a family with adaptations for children of any age.
Health

3rd Grade

Learn about staying safe around fire and water as well as around common hazards. Learn how to stay safe when you are on the street. Start learning about basic first aid and what to do if someone is bleeding, choking, or has been exposed to poison. Practice good hospitality. Learn about the benefits of exercise and how to measure your heart rate.

On SchoolhouseTeachers.com

Growing Healthy in Third Grade: 9 weekly lessons

The unit Play It Safe in our Unit Studies and More section also addresses basic rules of how to stay safe around fire, water, while riding a bike, while riding in a car, when home alone, etc.

Additionally, SchoolhouseTeachers.com offers Nourishing Nuggets, Family Nutrition, and Family Fitness classes that are designed to be done as a family with adaptations for children of any age.
Health

4th Grade

Start learning about how your body works and how to take care of its various systems. Learn about the cardiovascular system and how to take care of your heart and lungs. Understand how these are connected to endurance and having energy. Continue to practice first aid and how to respond in emergencies. Know how to respond to strangers. Learn to identify and deal with dangerous situations.

On SchoolhouseTeachers.com

Growing Healthy in Fourth Grade: 9 weekly lessons

Lapbooking: four-week study on A Quick Look at the Human Eye

Additionally, SchoolhouseTeachers.com offers Nourishing Nuggets, Family Nutrition, and Family Fitness classes that are designed to be done as a family with adaptations for children of any age.
Health

5th-6th Grade

At this point, many curricula begin blending health with science and anatomy. This is also a good time to further explore and become familiar with first aid practices (including how to identify and treat hypothermia, heat stroke, and heat exhaustion) and how to respond to dangerous or emergency situations.

On SchoolhouseTeachers.com

Preventing and Responding to Emergencies: 9 weekly lessons
Lapbooking: four-week study on Summer Safety
Ditch the Desk: two-week study on Cold and Insulation
Health 101: 32-week study for 6th grade

Our World Book Discover library contains a series of videos about diseases, prevention, and careers in medicine in the World Book Explains section.

Additionally, SchoolhouseTeachers.com offers Nourishing Nuggets, Family Nutrition, and Family Fitness classes that are designed to be done as a family with adaptations for children of any age.
Health

7th-12th Grade

Many health curricula either introduce or expand on the topics of sex education, tobacco use, drugs, and alcohol throughout the junior high and high school years. We feel it is imperative for each family to decide when those discussions are appropriate for each child and will not attempt to assign grade levels to these discussions.

On SchoolhouseTeachers.com

If you would like to continue to incorporate general health studies through 8th grade, you may want to consider Understanding Middle School Health, a 36-week course for 6th-8th grade.

Additionally, SchoolhouseTeachers.com offers Nourishing Nuggets, Family Nutrition, and Family Fitness classes that are designed to be done as a family with adaptations for children of any age.
History

The approaches to teaching history are varied, but for the purposes of this scope and sequence, we are offering an outline of two main tracks: **traditional** (following a generally chronological approach to US history and a regional approach to world history) and **classical** (a series of cycles that follows a chronological approach, with each cycle through the topics going into more depth). Remember that you can never teach every moment of history! Help your children understand the framework of history so they can continue to build on that knowledge for the rest of their lives.

History

Kindergarten (Traditional)
Early American History (pre-Columbian period to the Revolutionary War)

- Learn about your own family history
- Discuss past, present, and future
- Explore the significance of things changing over time
- Sequence major events
- Review prominent national symbols such as the US Flag, the Pledge of Allegiance, the National Anthem, the Statue of Liberty, and the White House
- Introduce famous Americans
- Discuss Colonial life
- Discuss Native Americans
- Introduce Christopher Columbus
- Learn about families and children around the world

Kindergarten (Classical)

- There is not generally a kindergarten history class in the classical track; however, you could use the time to enjoy historical picture books or to start slowly on 1st grade history materials. You may also want to consider using this time to introduce or review national symbols such as the US Flag, the Pledge of Allegiance, the National Anthem, the Statue of Liberty, and the White House as well as the role of the president and vice president and learn patriotic songs.
History

Kindergarten

On SchoolhouseTeachers.com

Traditional:

Figures in History: collection of cut-out figures with basic historical facts
Getting Started with American History for Kindergarten: 36 weekly lessons with daily lessons

Classical:

- See note on classical track objectives for kindergarten.
History

1st Grade (Traditional)
Early American History (pre-Columbian period to the US Constitution)

Develop a deeper understanding of Early American History by continuing to learn about:
- Columbus and Native Americans
- Early Spanish and English settlements
- Historical figures such as John Smith, Pocahontas, Squanto, Daniel Boone, Lewis and Clark
- Famous Americans such as Johnny Appleseed, Davy Crockett, and those connected to holidays
- National symbols and figures: US Flag, president, vice president, patriotic songs, and other symbols
- American folktales such as Paul Bunyan, Pecos Bill, John Henry
- Early wars including the French and Indian War and American Revolution
- The problem of slavery

1st Grade (Classical)
Ancient History (from Creation to AD 476)

Demonstrate knowledge of writings, ways of life, government, wars, and major contributions of this period including:
- The lands and events of the Old Testament period including Creation, the Flood, the Tower of Babel, the patriarchs, the period of the Exodus, the reign of King David, the Divided Kingdom of Israel, the fall of Israel to Assyria and Babylon, and the Exile
- Mesopotamians and Sumerians
- Ancient Egypt including Nefertiti, Tutankhamen, and Ramses II
- Ancient China including the Shang and Zhou Dynasties
- Ancient Greece including Homer, the Olympic Games, Athens and Sparta, the Golden Age of Athens
- Ancient Rome including its founding and the birth of the Roman Republic
- The Golden Age of India
History

1st Grade
On SchoolhouseTeachers.com

Traditional:
ABC with Me: History: 26-week introduction to figures in American history
American History for Beginners: 34 weeks covering Columbus to the US Constitution
Discovering American Folktales: 6 weekly lessons

Classical:
Ancient History for Elementary: 36 weeks covering the key objectives listed except for the New Testament period. The lands and events of the New Testament period including the life, death, and resurrection of Jesus Christ, the Early Church, and the missionary journeys of Paul are covered in a variety of our Bible classes.
History

2nd Grade (Traditional)
American History (Constitutional Convention to late 19th century)

- Significance, details of creating, and impact of early historical documents such as the Constitution and Bill of Rights
- War of 1812
- Westward Expansion to include wagon trains, Trail of Tears, cowboys, and pioneers
- Early inventions such as steamboats and steam-powered locomotives
- Causes and effects of Civil War
- Abraham Lincoln's Gettysburg Address and Emancipation Proclamation
- Immigration
- Significance of Ellis Island and the Statue of Liberty
- Equal Rights
- Key American figures: Harriet Tubman, Abraham Lincoln, Ulysses Grant, Robert E. Lee, Andrew Jackson
History

2nd Grade (Classical)
Medieval History to the Renaissance (AD 476-1492)

Americas:
- Learn about the ancient Mayans and Aztecs
- Learn about early explorers including: Leif Eriksson and Prince Henry the Navigator

Europe and Asia:
- Learn about Germanic tribes, Franks, Charlemagne, King Arthur and the legends surrounding him, and the Byzantine Empire
- Study life in China under the Sui, Tang, and Ming Dynasties
- Learn about Al-Andalus, the Umayyad Dynasty, and Medieval Spain

- Understand the significance of William the Conqueror and the Battle of Hastings
- Learn about Richard the Lionhearted and Saladin
- Identify the significance of King John and the Magna Carta
- Learn about the contributions and influences of Kublai Khan and Marco Polo
- Study the Renaissance in Italy, including famous artists, inventions, and everyday life
- Study the beginnings of the Reformation including John Wycliffe and Jan Hus
- Understand the impact of Gutenberg and the invention of the printing press

Early and Medieval Africa:
- Learn about the kingdoms of Ghana and Mali
History

2nd Grade

On SchoolhouseTeachers.com

Traditional:
Stories of Great Americans for Little Americans: 30-week course covering key figures from William Penn through Kit Carson
Stepping Through History Starting With You: 27-week course covering modern times back through the 1870s
Hard Times and Hope: 9-week course covering the Civil War and immigration
Let Freedom Ring: stand-alone unit study in our Unit Studies and More section

Using these history resources in conjunction with each other will give students a detailed look at the times covered in the grade-level objectives. Stories of Great Americans focuses more on key people rather than specific historical events.

Classical:
Medieval to the Renaissance: Elementary History: 36-week study
History

3rd Grade (Traditional)
American and World History

Exploration
- Learn about explorers, including Leif Eriksson, Prince Henry, John Cabot, Christopher Columbus, Vasco da Gama, Ponce de Leon, Pedro Cabral, Vasco de Balboa, Ferdinand Magellan, Hernando de Soto, Francisco de Coronado, Henry Hudson, and Samuel de Champlain; identify their native country and their route of exploration
- Discuss exploration in Australia and the South Pacific

Native Peoples, the 13 US Colonies, and the Industrial Revolution
- Explore various Native American tribes
- Learn about the 13 colonies, specifically their origin, crops, religion, and government
- Study the Industrial Revolution, including inventions, transportation, factories
- Identify inventions by Eli Whitney and James Watt

Europe (Renaissance to the early 19th century)
- Study the Renaissance in Italy, including the rise of Italian city-states, famous artists, inventions, and everyday life
- Study the Reformation, focusing on Gutenberg, Martin Luther, Copernicus, Galileo, and conflicts between science and the church
- Early exploration and colonization of England to include the Church, rise in sea power, and everyday life
- Recognize key historical figures in leadership roles of the time period, including Catherine the Great, Louis XIV to Louis XVI, Marie Antoinette, and Napoleon Bonaparte
- Study missionaries of the time period
History

3rd Grade (Classical)
Age of Exploration to Early 1700s (AD 1492-1755)

Americas:
• Learn about life in the Incan Empire
• Learn about explorers including John Cabot, Vasco da Gama, Pedro Cabral, Christopher Columbus, Hernan Cortes, Francisco Pizarro, Ferdinand Magellan, Vasco de Balboa, Ponce de Leon, Jacques Cartier, Hernando de Soto, Francisco de Coronado, Samuel de Champlain, and Henry Hudson; identify their native country and their route of exploration
• Trace the development of early Spanish and English settlements
• Understand the contributions of historical figures such as John Smith, Pocahontas, Squanto, Roger Williams, William Penn, and James Oglethorpe
• Learn about the 13 colonies, specifically their origin, crops, religion, and government
• Understand the significance and effects of the Great Awakening including George Whitefield, Jonathan Edwards, and Francis Asbury

Europe, Asia, and Africa:
• Understand the contributions of the Kingdom of the Songhai in Africa
• Learn about the significance of the Mughal Dynasty of India

On SchoolhouseTeachers.com (cont.)

Classical:
11th-12th Grade: **They Lived for God**: this video course studies the lives of Christian men and women from the Reformation through the present day

11th-12th Grade: **Leaders of History** is an advanced history course that looks at the lives of influential people from Cyrus the Great through the 19th century.

11th-12th Grade: Our World Book Advanced library includes a **Teaching with Documents** series of lessons on European history, world history, and world culture.

Our World Book Advanced library offers **Pathfinders** for advanced students interested in independent study. High school history topics covered by Pathfinders include ancient Egypt, ancient Greece, ancient Rome, Australia, Canada, the American Civil War, Native Americans, inventions, Abraham Lincoln, the Revolutionary War in America, and the United States.

*Please be aware of your state's requirements. If American Government and Economics is required, it may need to be studied in addition to the history topics. SchoolhouseTeachers.com offers a variety of classes related to these topics, including American Government, Economics, and Free Market Economics. Also, for 11th or 12th grade, there is an in-depth class on the Constitution and Bill of Rights and two additional stand-alone units found in our Unit Studies and More section, National Debt and Miracle of America.
Additional History Resources

**This Day in History**: (all ages) collection of resources to bring history to life every day of the year

**Hands-On Notebooking Across the United States**: state-by-state notebooking adventure for K-2nd

**Learning Ladders: Famous Buildings**: stand-alone eBook in our Unit Studies and More, designed for 1st-2nd grade

**Learning Ladders: Inventions**: stand-alone eBook in our Unit Studies and More, designed for 1st-2nd grade

**American History in Picture Books**: this series of activities and discussion questions based on picture books is a great introduction to history for students in 1st-5th grade

**Lapbooking Through the Ages**: 13 lapbooks for 1st-5th grade on a variety of history topics

**All About Inventions**: this short unit for 2nd-5th grade on our Unit Studies and More page takes a fun look at the history of some modern inventions like glue, bubble gum, and more

**Presidents of the Past**: a short unit for 2nd-5th grade discussing select presidents from Washington to Nixon can be found in our Unit Studies and More section

**Summer Olympics**: one-month unit study for 2nd-6th grade on our Unit Studies and More page

**Life of Abraham Lincoln**: 12-week study for 2nd-9th grade

**The Submarine: A Legend Before Its Time**: stand-alone unit study for 3rd-7th grade on our Unit Studies and More page

**Fashions in History**: 11 weekly lessons plus numerous optional extension activities

**A Timeline of Hieroglyphics to Hypertext: A Timeline of the Written Word**: stand-alone eBook in our Unit Studies and More, designed for 4th-6th grade

**A Timeline of Smoke Signals to Smartphones: A Timeline of Long-Distance Communication**: stand-alone eBook in our Unit Studies and More, designed for 4th-6th grade

**A Timeline of Stargazing to Space Travel: A Timeline of Space Exploration**: stand-alone eBook in our Unit Studies and More, designed for 4th-6th grade

**Liberia: Land of Liberty**: stand-alone unit study for 4th-6th grade on our Unit Studies and More page

**History of Air Travel**: five eBooks in our Unit Studies and More, designed for 5th-6th grade

**Native American History: An Introduction**: eighteen weeks designed for 7th-9th grade

**Writing On This Day In History**: collection of history-themed writing prompts for every day of the year; designed for 7th-10th grade

**History Quizzes and Activities**: numerous units for 7th-12th grade*
Additional History Resources (cont.)

Women Through History: twenty-nine weeks for 8th-12th grade  
Church History: twelve weeks for 9th-12th grade  
History of Christianity: video-based course for 9th-12th grade exploring the impact of Christianity on various points of history  
Heroes: Saving Jewish Lives from the Nazis (VIDEO): 9th-12th grade  
Magna Carta Unlocked (VIDEO): four-hour video documentary for 9th-12th grade  
This Changed Everything (VIDEO): three-hour video documentary about the Protestant Reformation with study guide for 9th-12th grade  
WWI Military Chaplains (VIDEO): documentary for 9th-12th grade  

You may also enjoy Michelle Miller’s recommended reading lists for Black History Month, Courage, Hero Hurrah! and World War II.

Our World Book Student library has a biography center where you can search more than 10,000 famous people or generate lists of people based on gender, job or achievement, country or cultural heritage, and time period. For example, students could find female explorers or male English scientists of the 1800s.

Our World Book Timelines library includes hundreds of timelines, thousands of events, and the ability to build or customize your own timeline. Some of the premade timelines include timelines of US, African, Asian, Australian, Canadian, European, Latin American, Middle East, and New Zealand history; US military history; the history of explorers; world history; history of science and inventions; and the history of literature.

Our World Book Advanced library includes a Teaching with Documents series of lessons on military history from Charlemagne to Vietnam.

*One possible way to use the history quizzes as part of your curriculum is to use the answer key as the lesson to spark independent research. For example, using the Campaign Slogans quiz, students can learn who said slogans such as, “A New Deal,” “The Silent Majority,” and “Return to Normalcy” and then use that knowledge as a springboard to learn more about these presidents, what their slogans mean in an historical context, and why they resonated with people.
Geography

Some curricula treat geography as a subject separate from history in K-8th grade, while others incorporate it into historical studies. For example, any time the nation of China is studied is a perfect time to explore the physical characteristics and boundaries of the nation. This makes geography interesting and relevant for the students. However, there is some basic geography that can be studied independently from historical studies. Here are some of the goals included in various curricula.

You may also enjoy Michelle Miller’s Monthly Book Lists for Families selections for Africa, Florida, and Travel.
Geography

Kindergarten

- Learn to recognize pictures of famous US monuments or landmarks
- Create maps of places you know, such as your room, your house, your neighborhood, etc.
- Develop a sense of awareness of geographical location (house, street, city, state, country, continent, planet)

On SchoolhouseTeachers.com

U.S. Landmarks Coloring Book: in the Unit Studies and More section
All About Maps: Unit K: self-paced unit

Additionally, SchoolhouseTeachers.com has a number of supplemental geography resources for your family to enjoy. You will find these on the page titled Additional Geography Resources that is included with this scope and sequence. There are printable maps, outline maps and flags, an atlas, interactive maps, and more in the map resources featured in several of our World Book libraries and fun geography games in our World Book Kids library.
Geography

1st Grade

- Learn about different types of maps (atlases, globes, etc.)
- Learn how to understand a basic map key (water, land, rivers, etc.)
- Learn about the compass rose and cardinal directions (north, south, east, and west)
- Memorize the seven continents and where they are on a map
- Memorize the five oceans and where they are on a map
- Locate the United States, Canada, and Mexico on a map

On SchoolhouseTeachers.com

All About Maps: Unit 1: self-paced unit
All About the World: Unit 1: self-paced unit
Living Geography: 16 weekly lessons

Our World Book Early World of Learning library has short videos about places around the world.
Our World Book Kids library includes two mapping your environment projects under Doodle and Design.

Additionally, SchoolhouseTeachers.com has a number of supplemental geography resources for your family to enjoy. You will find these on the page titled Additional Geography Resources that is included with this scope and sequence. There are printable maps, outline maps and flags, an atlas, interactive maps, and more in the map resources featured in several of our World Book libraries and fun geography games in our World Book Kids library.
Geography

2nd Grade

- Learn about the equator, the hemispheres, and the north and south poles
- Learn more about the oceans (which is the largest, what types of animals live in them)
- Learn about major geographical features of the Earth (Mount Everest, the Sahara, the Amazon rainforest)
- Create maps of stories you hear (showing where in the story various events took place)

On SchoolhouseTeachers.com

All About Maps: Unit 2: self-paced unit
All About the World: Unit 2: self-paced unit

Additionally, SchoolhouseTeachers.com has a number of supplemental geography resources for your family to enjoy. You will find these on the page titled Additional Geography Resources that is included with this scope and sequence. There are printable maps, outline maps and flags, an atlas, interactive maps, and more in the map resources featured in several of our World Book libraries and fun geography games in our World Book Kids library. Several of our World Book libraries include a feature called Compare Places which allows students to compare and contrast various states, provinces, dependencies, countries, and continents.
Geography

3rd Grade

- Learn how to use grid maps (e.g. A4-D5)
- Learn about latitude and longitude
- Learn about various climates and where they are found
- Learn the meaning of the Prime Meridian and the significance of the Tropic of Cancer and Tropic of Capricorn
- Learn various landforms including peninsula, strait, gulf, bay, isthmus, plateau, mouth, delta, tributary, and drainage basin
- Continue to review information already learned (continents, oceans, equator, hemispheres, etc.)
- Learn the major rivers of each continent

On SchoolhouseTeachers.com

All About Maps: Unit 3: self-paced unit
All About the World: Unit 3: self-paced unit

Additionally, SchoolhouseTeachers.com has a number of supplemental geography resources for your family to enjoy. Several of our World Book libraries include a feature called Compare Places which allows students to compare and contrast various states, provinces, dependencies, countries, and continents.
Geography

6th Grade

- Learn about topographical maps
- Study major landmarks and features of the United States and her territories
- Learn the capitals of all North American, Central American, South American, and Caribbean nations

On SchoolhouseTeachers.com

All About Maps: Unit 6: self-paced unit
All About the World: Unit 6: self-paced unit

Additionally, SchoolhouseTeachers.com has a number of supplemental geography resources for your family to enjoy. You will find these on the page titled Additional Geography Resources that is included with this scope and sequence. There are printable maps, outline maps and flags, an atlas, interactive maps, and more in the map resources featured in several of our World Book libraries and fun geography games in our World Book Kids library. Several of our World Book libraries include a feature called Compare Places which allows students to compare and contrast various states, provinces, dependencies, countries, and continents.
Geography

7th Grade

- Study major landmarks and features of Canada and Mexico
- Study how the United States has changed over time (colonies, the Louisiana Purchase, new territories, etc.)
- Study how major events such as World Wars I and II significantly changed the political geography of the world
- Learn the capitals of all major European nations

On SchoolhouseTeachers.com

All About Maps: Unit 7: self-paced unit
All About the World: Unit 7: self-paced unit

Materials that discuss how the United States has changed over time and the effect major events have had on the political geography of the world are woven throughout multiple history classes on the site.

Additionally, SchoolhouseTeachers.com has a number of supplemental geography resources for your family to enjoy. You will find these on the page titled Additional Geography Resources that is included with this scope and sequence. There are printable maps, outline maps and flags, an atlas, interactive maps, and more in the map resources featured in several of our World Book libraries and fun geography games in our World Book Kids library. Several of our World Book libraries include a feature called Compare Places which allows students to compare and contrast various states, provinces, dependencies, countries, and continents.
Geography

8th Grade

- Study the main physical features of each continent
- Learn to locate the majority of the world’s nations on a political map
- Learn the capitals of all major Asian and African nations along with Australia and New Zealand

On SchoolhouseTeachers.com

All About Maps: Unit 8: self-paced unit
All About the World: Unit 8: self-paced unit

Additionally, SchoolhouseTeachers.com has a number of supplemental geography resources for your family to enjoy. You will find these on the page titled Additional Geography Resources that is included with this scope and sequence. There are printable maps, outline maps and flags, an atlas, interactive maps, and more in the map resources featured in several of our World Book libraries and fun geography games in our World Book Kids library. Several of our World Book libraries include a feature called Compare Places which allows students to compare and contrast various states, provinces, dependencies, countries, and continents.
Additional Geography Resources

**Everyday Explorers-Australia/New Zealand:** 7 monthly units for K-12th grade
**Everyday Explorers-Canada:** 11 monthly units for K-12th grade
**Everyday Explorers-USA:** 17 monthly units for K-12th grade
**Exploring Elementary World Geography:** 7 units for 1st-4th grade
**A Splash of Geography:** 12 monthly units for 1st-12th grade
**Ayo’s Awesome Adventures Around the World for Kids:** 10 eBooks for 2nd-4th grade
**Asia: Trade Route Safari** (also included with Additional History Resources): 38 weeks for 2nd-5th grade
**Wonders of the World:** 5 weeks for 3rd-5th grade
**Let's Visit Denmark:** 9 week-study for 3rd-6th grade
**Lapbooking:** 4-week unit on London and Buckingham Palace for 3rd-7th grade
**Get to Know Australia:** webquest for 5th-8th grade
**Geography Quizzes and Activities:** numerous units for 7th-12th grade*
**Kinetic Connections:** offers tips to help parents teach geography to hands-on learners
**Trek to the Holy Land and Beyond:** video series for middle-high school
**Geography of the Bible:** video series for high school

There are further resources in our [Unit Studies and More section](#) including Cruisin' the Country, Geography Study with George Frederic Handel, Geography Study with Missionary William Carey, Military Geography, Physical Geography of Africa, and Travel the World.

*One way to use the geography quizzes as part of your curriculum is to use the answer key as the lesson to spark independent research. For example, using the Commodities quiz, students can learn that Venezuela exports iron ore, Russia exports natural gas, etc. They can use that as a springboard to learn more about these specific countries and exports, write a paragraph or more on each, and then take the quiz at the end.*
Social Studies

Some curricula treat social studies as a subject separate from history, while others incorporate it into historical studies. The ways in which social studies can be combined with history are virtually endless. When you study a period in history, look at as many aspects of daily life as you can. What jobs did people have? What were their families like? What kinds of homes did they live in? Here are some specific goals included in various curriculums that do not always fall into a course of historical studies.
Social Studies

Kindergarten-1st Grade

- Your family structure
- Community helpers
- Community jobs and how they function (fire and police stations, post office, bank, newspaper, public transportation, telephone company, garbage disposal, etc.)
- American holidays and celebrations
- Things that make you special and unique
- Life on a farm

On SchoolhouseTeachers.com

Many of these topics are covered in the 34-week course Kindergarten Social Studies. Additional topics are studied in the 9-week course Exploring Social Studies for Beginners. Firefighters, law enforcement, and EMTs are discussed in the 3-week study Hometown Heroes for 1st-3rd grade. You can also learn about community helpers with Who Are Community Helpers? as well as the Community Helpers eBook, Community Helpers Coloring Book, and Learning Ladders—Jobs to Do eBook, available in the Unit Studies and More section. Our World Book Early World of Learning library has short videos about people and occupations; the Know It section has interactive learning tools about people at work.

This is also a perfect time to incorporate field trips so students can see first-hand how their community works.

You may also enjoy Michelle Miller’s recommended reading lists for Patriotism and Courage.
Social Studies

2nd-4th Grade

- Changes in transportation, communication, and technology, and how that affects our daily lives
- Flag etiquette
- Learn about famous artists, authors, musicians, and others in the arts and culture

On SchoolhouseTeachers.com

**Foods and Food Production**: 26 lessons for 1st-3rd grade

**Changes in Transportation, Communication, and Technology**: this unit is found in our Unit Studies and More section.

**Flag Etiquette**: this unit is found in our Unit Studies and More section.

Famous artists, authors, musicians, and others in the arts and culture are woven throughout the history, art, and music lessons found on the site.

Additionally, you may enjoy the Growing Up Dutch and Renaissance Festival units in *Ditch the Desk* and Michelle Miller's *Monthly Book Lists for Families* selections for Authors, Art, Patriotism, and Courage.
Social Studies

5th-6th Grade

- History of American holidays
- Comparing and contrasting nations of the Western hemisphere
- Details of various professions including chef, firefighter, veterinarian, doctor, military, missionary, police officer, farmer, pilot, artist, and video game designer

On SchoolhouseTeachers.com

History of Holidays in America: covers more than 20 holidays in a format that can be adapted to many schedules

Western Hemisphere Social Studies: eighteen weeks

All About Careers: in-depth study of eleven careers

Our World Book Student library has a fun collection of holiday-themed trivia quizzes.

You may also enjoy Michelle Miller’s recommended reading lists for Patriotism and Courage.
Social Studies

7th-8th Grade

- Celebrations, food, and customs in other countries
- Closer look at how advancements in science and technology impact our daily lives
- Preserving cultural heritages in a quickly changing world

On SchoolhouseTeachers.com

Learning About World Cultures: 200+ lessons exploring all nations in the world
Ring in the New Year: short study (flexible length) for 5th-7th grade explores New Year’s celebrations and traditions in various countries.
Inventions and Discoveries: Transportation: eBook in the Unit Studies and More section

Additionally, Mock Trial is a social studies class for 7th-12th grade that contains 35 topics that can be studied independently from one another for any total course length desired or taken together as one course spanning more than 145 weeks.

Our World Book libraries include webquests on the history of computers and electronic games.

Our World Book Social Studies Power library includes lessons on culture, indigenous peoples, immigration, and civil rights. The lessons themselves are written for upper elementary students, but they include critical thinking and extension assignments that may be of interest to older students.

You may also enjoy Michelle Miller’s recommended reading lists for Patriotism and Courage.
Social Studies

9th-12th Grade

- Influence of social media, TV, and the Internet on our daily lives
- Impact of globalization on each aspect of how we live and work
- Impact your community (your family, friends, etc.) has on you personally
- Impact you and your community have on the world around you
- Growth of the indigenous missionary movement

On SchoolhouseTeachers.com

Globally Connected: High School Social Studies: 18-week course

Media Socialization: 19-week course for 9th-12th grade that discusses the influence of social media, TV, and the Internet on our daily lives

Additionally, Mock Trial is a social studies class for 7th-12th grade that contains 35 topics that can be studied independently from one another for any total course length desired or taken together as one course spanning up to 70 weeks.

You may also enjoy Michelle Miller’s recommended reading lists for Patriotism and Courage.
Citizenship

Some curricula treat and include with its history/social studies for K-6th grades specific goals regarding teaching citizenship. This can be done in a structured way or in an unstructured way as you discuss voting, respecting authority, working together, and other such topics. Here are some of the goals included in various curricula.
Citizenship

Kindergarten

Understand why families and groups of any kind need rules. Talk about why it’s important to work together. Discuss the kind of rules that keep people safe and happy.

On SchoolhouseTeachers.com

Safety rules and signs, civic leaders, and authority figures are discussed in the 34-week course Kindergarten Social Studies. You may also enjoy Michelle Miller’s recommended reading lists for Civics, Parts One and Two.

1st Grade

Talk about the types of rules your community has (speed limits, where to ride bicycles, etc.). Discuss why they are important and how they help keep things orderly and safe and help people avoid or deal with conflicts. Memorize the Pledge of Allegiance. Talk about who your community, state, and national leaders are and what their jobs are.

On SchoolhouseTeachers.com

Exploring Citizenship in First Grade: 9 weekly lessons

You may also enjoy Michelle Miller’s recommended reading lists for Civics, Parts One and Two.
Citizenship

2nd Grade

Discuss what it means for someone to abuse his or her power. Talk about what a good leader looks like and what we can do to be good citizens. Discuss voting and elections. Talk about why we pay taxes.

On SchoolhouseTeachers.com

Growing in Citizenship in Second Grade: 9 weekly lessons

You may also enjoy Michelle Miller’s recommended reading lists for Civics, Parts One and Two.

3rd Grade

Discuss the US Constitution, the Bill of Rights, and what they mean. Talk about the rights and freedoms they guarantee. Memorize the Preamble of the Constitution. Talk about what a democracy is and what democracy means. Discuss what the difference is between God-given human rights and the rights a government gives or recognizes.

On SchoolhouseTeachers.com

Rights of Citizens for Third Graders: 9 weekly lessons

Our World Book Social Studies Power library includes a series of Ask the Historian videos all about the Supreme Court.

You may also enjoy Michelle Miller’s recommended reading lists for Civics, Parts One and Two.
Citizenship

4th Grade

Discuss how our leaders are elected. Talk about how leaders are chosen in other countries. Discuss the Declaration of Independence. Compare the democracy in the United States to the government of other nations. Discuss your state government, what those who serve in it do, and what some of the problems and issues are that your state government is working to address.

On SchoolhouseTeachers.com

Rights of Citizens for Fourth Graders: 8-week study

Elections and the US Presidency: 6-8 week unit study for 4th-8th grade

The structure of local, state, and federal government is discussed in the four-week study Checks and Balances. You may also enjoy Michelle Miller’s recommended reading lists for Civics, Parts One and Two.

Our World Book Social Studies Power library includes lessons on what makes a community, types of communities, the types and roles of government, and the responsibility of citizens.
Citizenship

5th Grade

Discuss the differences between communism, socialism, and capitalism. Study the founding documents and their key ideas and compare them to the foundational documents and ideas of other nations including Canada and Mexico.

On SchoolhouseTeachers.com

Citizenship Around the World: 9 weekly lessons

You may also enjoy Michelle Miller’s recommended reading lists for Civics, Parts One and Two.
Citizenship

6th Grade

Study the way governments of ancient civilizations were structured and compare and contrast these forms of government with democracy. Explore how Christian beliefs helped shape the beginning of the United States. Learn about parliamentary procedure.

On SchoolhouseTeachers.com

Ancient Citizens in Ancient Civilizations: 9 weekly lessons

The role of Christianity in the shaping of the United States is explored in the video We the People in the History of Christianity class. The class itself and the accompanying worksheets and essay assignments are most appropriate for high school students, however the videos can be watched as a family, independent from the full class, in order to encourage discussion on this topic.

In our World Book Advanced library, there is a pathfinder project, an in-depth collection of resources meant to guide students through independent study, that focuses on cities. It looks at several ancient cities and also the common problems cities have faced in the past and face today. It is designed for high school students, but an advanced 6th grader may also find some information of interest.

You may also enjoy Michelle Miller's recommended reading lists for Civics, Parts One and Two.
Economics

Some curricula treat and include with their K-6th grade history/social studies specific goals regarding the teaching of economics. This can be done in a structured way or in an unstructured way as you discuss daily life, budgeting, the needs of the household, and other related topics with your children. You may enjoy Michelle Miller’s Monthly Book Lists for Families selections for Entrepreneurship & Work Ethic and Thrift & Resourcefulness. Here are some of the goals included in various curricula.

Additionally, for students in 7th-12th grade, SchoolhouseTeachers.com offers:

Inventions and Discoveries: Economics: eBook for 5th-8th grade in the Unit Studies and More section
Economics: 16 weeks for 7th-12th grade
Free Market Economics: 24 weeks for 8th-12th grade
Economics

Kindergarten

Discuss the difference between a need and a want. Talk about how to tell them apart and how to choose between them. Learn about some of the jobs people do to earn money and provide for their families.

On SchoolhouseTeachers.com

These topics are incorporated into the 34-week Kindergarten Social Studies course.

1st Grade

Talk about scarcity of goods and what it means. Discuss how there is not an unlimited supply of various resources. Talk about what it means to save money. Discuss how people can utilize the barter system/trade things other than money (such as time, resources, skills, etc.) for the goods that they need.

On SchoolhouseTeachers.com

Elementary Economics for First Grade: 9 weeks
Economics

2nd Grade

Talk about how nations buy and trade for the things that they need. Discuss why people work and the value of work. Talk about what it means to *produce* and what it means to *consume*. Learn about the types of goods and services local businesses produce or offer.

On SchoolhouseTeachers.com

Elementary Economics for Second Grade: 9 weeks

3rd Grade

Discuss supply and demand. Learn more about importing and exporting, building on what you’ve already discussed regarding how nations buy and trade for resources. Talk about what a surplus is.

On SchoolhouseTeachers.com

Our World Book Social Studies Power library includes lessons on what an economy is, producers and consumers, earning money, saving and spending, and more.

Elementary Economics for Third Grade: 9 weeks
Economics

4th Grade

Talk about ways a region’s geography affects its economy (its access to resources, the resources it produces, etc.). Create a map of each continent to show the major exports of several nations. Review key concepts such as produce/consume, supply/demand, and importing/exporting.

On SchoolhouseTeachers.com

Elementary Economics for Fourth Grade: 9 weeks

5th Grade

Talk about the stock market and investments and how they work. Discuss how various types of economic systems have developed. Explore how various economies are interdependent.

On SchoolhouseTeachers.com

Elementary Economics for Fifth Grade: 9 weeks
Economics

6th Grade

Study the various standards for creating and issuing currency. Explore how exchange rates are determined, why they fluctuate wildly at times, and how that affects people’s everyday life.

On SchoolhouseTeachers.com

Elementary Economics for Sixth Grade: 9 weeks
Math

Kindergarten

Concepts at this grade level are best learned by using hands on methods to include objects that the students can manipulate. Sets of small objects for the students to use such as beans, erasers, toy cars, etc. would be beneficial to have on hand as these ideas are presented.

Counting to 100 by ones and tens
Recognize, name, and write numbers 1-100
Understand the concept of zero
Ordinal positions from first-tenth; also first, next, last
Understand daytime/nighttime
Compose and decompose numbers with objects
Understand temperature (hot/cold)
Use tally marks to represent numbers to at least 10
Recognize and extend simple patterns
Addition sums to 10
Basic addition and subtraction word problems
Read and write time to the hour

Count forward from any number (1-100)
Represent numbers with tangible objects
Estimate small numbers of items in a set
Understand parts and whole, equal/unequal parts
Identify coins; count pennies
Classify objects by attributes (shape, color, size, etc.)
Understand sequence of events
Build shapes from objects
Basic addition concepts
Basic subtraction concepts
Place value: tens and ones
Calendars (days of the week, months, seasons)

Compare objects by length, width, or capacity (longer, shorter, bigger, smaller, heavier, lighter, taller, shorter, more, and less)
Estimate simple measurements (longer, shorter, more, less, heavier, lighter, holds more/less, takes more/less time)
Spatial Relationships (top, middle, bottom, left, right, over, under, inside, outside, on, off, front, back)
2-D and 3-D Shapes (circle, square, triangle, rectangle, hexagon, sphere, cylinder, box shapes (rectangular solid, cube), cone)

On SchoolhouseTeachers.com

Building a Foundation with Kindergarten Math: 36-week course covering the traditional topics listed above

SchoolhouseTeachers.com has How to Teach Elementary Math, Kinetic Connections, and Hands-On Math Help with Cuisenaire Rods to help parents teach elementary math skills. There are hundreds of fun printable games to help reinforce elementary math concepts in Everyday Games, and a number of additional supplemental math resources for your family to enjoy. You will find these on the page titled Additional Math Resources that is included with this scope and sequence.
Math

1st Grade

Recognize, name, and write numbers 1-1,000
Understand greatest and least using symbols <, >, and =
Simple story problems
Represent a picture with a number sentence
Tell time to the nearest five minutes
Subtraction facts through 13
Using a rule to complete a table
Add three one-digit numbers with regrouping
Addition facts through 13
Identify numbers as odd or even

Place value: ones, tens, hundreds
Three-digit addition with carrying
Expanded form of numbers
Subtract zero rule
Review ordinal numbers
Counting and combining coins
Number sentences (equations) and vertical form
Count and write backward by tens, fives, and twos
Two-digit subtraction with no regrouping
Number words zero to twenty

Divide circles and rectangles into equal parts using the concepts of simple fractions 1/2 and 1/4
Understand basic terms of measure (pounds, minutes, feet, quarts, meters, inch, centimeter, Fahrenheit, Celsius)
Draw and create plane shapes (circle, square, triangle, and rectangle) and name their attributes such as sides and corners
Understand commutative, associative, and identity properties of addition
Draw and create solid shapes (sphere, cylinder, rectangular prism, cube, and cone) and name their attributes such as corners, faces, and curved sides
Simple word problems and charts: organize, represent, and interpret data on tables, tally charts, bar graphs, and pictographs
Continue written skip counting patterns by tens, fives, threes, and twos

On SchoolhouseTeachers.com

Starting Out with First Grade Math: 36-week course covering the traditional topics listed above

Additionally, SchoolhouseTeachers.com has How to Teach Elementary Math, Kinetic Connections, and Hands-On Math Help with Cuisenaire Rods to help parents teach elementary math skills. There are hundreds of fun printable games to help reinforce elementary math concepts in Everyday Games, and a number of additional supplemental math resources for your family to enjoy. You will find these on the page titled Additional Math Resources that is included with this scope and sequence.
Math

2nd Grade

Tell time to the nearest minute
Word problems with money (introduce decimals)
Ordinals first to twentieth
Work with a number line
Compare fractions with 1 as a numerator
Compare fractions with common denominators
Understand a.m./p.m.
Pictographs, bar graphs, and line graphs
Place value to thousands
Concept of multiplication and facts 0, 1, 2, 5, and 10
Area and perimeter
Measuring tools: ruler, scale, thermometer
Count and combine coins and bills
Equal parts: halves to tenths
Estimate length, width, mass, and capacity
Round to nearest ten and hundred
Number words zero to nine hundred ninety-nine
Length: inch, foot, yard, centimeter, meter
Weight: ounce, pound; Mass: gram, kilogram

Addition
Zero, grouping, and order principles
Facts through 18
Column addition
Four-digit addition with regrouping
Subtraction
Facts through 18
Four-digit subtraction with regrouping

Patterns
Measuring tools: cup, liter
Make change
Concept of division and facts 0, 1, 2, 5, 10
Story problems with addition and subtraction
Roman numerals
Compare numbers using <, >, and =
Capacity: cup, pint, quart, gallon, liter
Temperature: Fahrenheit, Celsius

Plane figures (circle, square, triangle, rectangle, pentagon, hexagon, oval)
Bundling numbers (understanding that 10 ones = 1 ten, 10 tens = 1 hundred, 10 hundreds = 1 thousand)
Write an equation to represent a problem using a symbol for the unknown number
Geometrical vocabulary (vertices, edges, faces, curves, similar, congruent, symmetry, horizontal/vertical)
Number recognition, writing, and counting to 100,000
Solid figures (sphere, cylinder, rectangular prism, cube, cone, pyramid)
Skip counting forward and backward by ones, twos, threes, fours, fives, tens, and hundreds
2nd Grade
On SchoolhouseTeachers.com

Stepping Up with Second Grade Math: 32-week course covering the traditional topics listed above

Additionally, SchoolhouseTeachers.com has How to Teach Elementary Math, Kinetic Connections, Finally Conquer Fractions, and Hands-On Math Help with Cuisenaire Rods to help parents teach elementary math skills. There are hundreds of fun printable games to help reinforce elementary math concepts in Everyday Games, and a number of additional supplemental math resources for your family to enjoy. You will find these on the page titled Additional Math Resources that is included with this scope and sequence.
Math: 3rd Grade

Story problems with up to four steps
Addition: five-digit addends; vertical forms
Subtraction with up to four-digit regrouping
Subtraction: five-digit minuend and subtrahend
Subtraction: continued review
Multiplication: zero property
Multiplication and division tables 0-12
Multiplication with regrouping
Multiplication: 2 to 3 digits by 1 digit
Division: 1 digit remainders
Division: 2 and 3 digits by 1 digit
Solving measurement equations
Averaging numbers
Recognize and write numbers 0-1,000,000
Length: half inch, foot, yard, mile
Capacity: cup, pint, quart, gallon
Weight: ounce, pound
Length: centimeter, meter, kilometer
Capacity: milliliter, liter
Mass: gram, kilogram
Converting measures
Understand and calculate area and perimeter
Count By 6s, 7s, 8s, 9s, 1,000s, and 10,000s
Money: dollar sign, addition and subtraction of
Solving money problems using the decimal point

Fractions
Terminology and basics
Compare
Mixed numbers
Equivalent fractions

Decimals
Read and write tenths and hundredths
Mixed numbers
Compare
Add and subtract

Equations
Missing addend
Missing factors
Negative numbers (temperature)
Finding the unknown number

Future and elapsed time
Schedules and future dates
Ordinals first through ninety-ninth
Noon and midnight
Categorize shapes by their attributes
Commutative and associative properties
Multistep problems
Solving problems containing parentheses

Continued on next page
Math

3rd Grade

Graphs and Tables (bar graph, pictograph, line plot, line graph, coordinate graph, tables and charts, tallies)
Plane Figures (circle, polygons, square, triangle, rectangle, pentagon, hexagon, octagon)
Solid Figures (sphere, cube, cylinder, cone, rectangular prism)
Logic and Probability (recognizing problems with too little information; use terminology of possible, impossible, and probable)

On SchoolhouseTeachers.com

Stretching Higher with Third Grade Math: 41-week course covering the topics listed above

Additionally, SchoolhouseTeachers.com has How to Teach Elementary Math, Kinetic Connections, and Hands-On Math Help with Cuisenaire Rods to help parents teach elementary math skills. There are hundreds of fun printable games to help reinforce elementary math concepts in Everyday Games, and a number of additional supplemental math resources for your family to enjoy. You will find these on the page titled Additional Math Resources that is included with this scope and sequence.
Expanded form of numbers
Place value of whole numbers and decimals
Equations with negative numbers
Equations with function tables
Graphs and scale drawings
Using an English and metric ruler
Round numbers to any place through thousands
Data: mean, median, mode
Data: range, frequency
Estimating answers
Reading a thermometer

Addition, Subtraction, Multiplication, & Division
Addition: through six-digit addends
Subtraction: through six-digits
Multiplication: 1 digit times 2-4 digits
Multiplication: 2-3 digits by 3 digits
Division: 2-4 digits by 1 digit
Division: 2-3 digits by 2 digits
Division: 1-2 digit remainders

Geometry
Draw, identify, define points, lines, line segments
Draw, identify, define rays and angles
Draw, recognize, define parallel and nonparallel
Identify various kinds of triangles
Understand circles and degrees
Use a protractor
Angles: right, acute, and obtuse
Symmetry, similar, and congruent
Radius and diameter of a circle
Using a Protractor

Fractions
Multiply fractions by whole numbers
Addition, subtraction, and multiplication
Factoring and divisibility
Convert improper fractions to mixed numbers
Convert mixed numbers to improper fractions

English and metric measures (Converting within and understanding differences between (such as grams are smaller than ounces, 8 cups = 1 gallon)

Math

5th Grade

Geometry
Coordinate system
X-axis and Y-axis
X-coordinate and Y-coordinate
Graph points to solve problems
Calculating volume in rectangular prisms
Define and describe a cubic unit
Solve word problems using volume
Graphing ordered pairs
Perimeter and area
Points and lines: points, horizontal/vertical lines, parallel/intersecting/perpendicular lines, line segments, rays
Angles: right, acute, obtuse, how to measure angles
Plane figures: circle, polygon, square, triangle, rectangle, pentagon, hexagon, octagon, quadrilateral, parallelogram, rhombus, trapezoid; edge, vertex; similar, congruent, symmetrical, translation, reflection, rotation, perimeter, circumference, and area
Solid figures and surface area: sphere, cone, cylinder, polyhedron, cube, prism, pyramid; face, edge, vertex, curved surface; nets; surface area; volume
Circles: center point, radius, diameter, chord, central angles
Triangles: sum of angles equals 180°, acute, obtuse, right; isosceles, scalene, equilateral

Fractions
Add and subtract with equivalent fractions
Multiply fraction by a whole number
Multiply a number by fraction greater/less than 1
Solve word problems with mixed numbers
Solve word problems with fractions
Divide a whole number by a fraction
Equivalent fractions

General
Scale drawings and map scale
Convert Fahrenheit to Celsius and Celsius to Fahrenheit
Review and continue working with decimals
Squares and square roots
Using exponents to show powers of 10

Prime/Composite Numbers and Factors
Prime/composite numbers and factors
Whole number equals the product of its prime factors
Greatest common factor
Least common multiple

You will find these on the page titled Additional Math Resources that is included with this scope and sequence.
Math

6th Grade

Equations
Inverse operations
Simplifying expressions
Read, write, and solve one-variable equations
Applying the order of operations
Inequalities

Percentages
Understanding percentages
Calculating percentages
Percents as fractions and decimals
Problem solving with percentages
Percents greater than 100

Numbers
Absolute values of numbers
Using positive and negative numbers
Data and statistics

Business Math
Banking
Calculating interest
Installment buying

Ratios and Proportions
Understanding ratios and proportions
Equal and unequal ratios and proportions
Word problems using ratios and proportions
Proportionate geometric figures

General
Calculating area and perimeter of 3-D shapes
Calculating area and perimeter of irregular shapes
Continue to review fractions and decimals
Using exponents

Graphing
Graphing negative numbers
Creating a variety of graphs from data

**Focused Learning Center-Math**: round up of all math resources on the site plus extra teaching helps
Science

Kindergarten Science involves an introduction to many concepts. The teaching method should center around exploration and observation to begin to create connections to previously learned material.

Explore and Observe Life Science
- Observe and inquire about living and nonliving things
- Seeds
- Simple life cycles
- Familiar plants and animals and how they grow
- Five senses
- Farm animals and pets

Explore and Observe Earth Science
- Characteristics of soil and rocks
- Weather
- Water
- Seasons
- Seashore
- Space

Explore and Observe Physical Science
- Physical characteristics (hot/cold, light/heavy, etc.)
- Beginning experiments
- Light and shadows
- Air
- Sun and moon
- Temperature
- Colors
- Magnets
Science

Kindergarten

On SchoolhouseTeachers.com

Exploring God's World with Kindergarten Science: eighteen weekly lessons explore various life science topics including types of animals such as insects, mammals, and birds, as well as earth science topics including rocks and materials.

Having Fun with Kindergarten Science: twenty-two weekly lessons explore life science, earth science, and physical science topics including seeds, simple life cycles, the weather, seasons, water, the seashore, space, physical characteristics, beginning experiments, light and shadows, air, sun and moon, temperature, colors, and magnets.

Our World Book Early World of Learning library has more than one hundred short videos about plants, animals, weather, and the planet.
Science

1st Grade

Life Science
• Plants
  • Key vocabulary: seeds, bulbs, flower, pistil, stamen, stem, roots
• Animals
  • Types of animals: zoo, circus, farm, pets, woodland, birds
  • Habitats
  • Classification of animals
• Five Senses
• Anatomy
  • Introduction of body systems and their roles

Earth Science
• Volcanoes
• Weather
• Seasons

Physical Science
• States of Matter
  • Key vocabulary: solid, liquid, gas, mixture, sink, float
• Types of Energy
  • Key vocabulary: heat, light, transparent, opaque, reflect, sound, vibrate
• Astronomy
  • Key vocabulary: sun, moon, planets, day, night, revolve, year
• Static Electricity
• Magnetic vs. Non-Magnetic
• Temperature

Life Science

Lapbooking: four-week study on Gray Squirrel, Red Squirrel for elementary
Wildlife Adventures: one-week study on mammals
Nature/Outdoors: four-week study of migration; four-week study of squirrels; four-week study of bears; four-week study of snakes; four-week study of ants; four-week study of wild birds; four-week study of wolves and coyotes; four-week study of owls; four-week study of mosquitoes; four-week study of birds
Creation, Nature, and You: eleven videos on seeds, trees, and plants
Sensational Sunflowers: single unit in the Unit Studies and More section that explores sunflowers and includes a science experiment
My Body: eBook in the Unit Studies and More section talks about senses and anatomy
Nature’s Places: eBook in the Unit Studies and More section
Science All Around Us: food chain, migration, hibernation, pollination, ecosystems, metamorphosis, camouflage, dormancy, and the impact of weather and season on people and animals units
Learning Ladders—Terrific Trees: stand-alone eBook in our Unit Studies and More section

Our World Book Kids library includes lesson plans about helpful and harmful insects, animal homes, and more under Creature Feature. It also includes science projects about animals, plants, and the human body.

In our World Book Science Power library, you will find lessons on animal behavior including hibernation and migration, as well the structure of living things including cells and systems.

Earth Science

Science All Around Us: atmosphere unit
Dinosaurs and the Bible: sixteen-week study

*This class is designed for elementary students, but depending on the interest level of your 2nd grader, you may want to hold this class until 4th grade. Second graders may enjoy the lectures but may need assistance with some of the worksheets.

Watersheds and the Water Cycle: single unit in the Unit Studies and More section

In our World Book Science Power library, you will find lessons on the water cycle.
Science

2nd Grade
On SchoolhouseTeachers.com (cont.)

Physical Science
Our World Book Kids library has a number of science projects about matter, energy, and machines as well as a webquest about space exploration.

Life, Earth, and Physical Science (cont.)
In our World Book Science Power library, you will find lessons on matter, force, light, energy, and simple machines.
Science of Our Planet: six weekly lessons exploring natural resources, the atmosphere, the weather's impact on living things, and erosion.

Let's Be Scientists: single unit in the Unit Studies and More section that discusses weather, astronomy, recycling, states of matter, body systems, and the five senses with several supporting experiments

Light, energy, and the scientific method will be studied in 3rd and 5th grades.
Science

3rd Grade

Life Science
- Animals
  - Key vocabulary: endangered, vertebrates, cold blooded, warm blooded, invertebrates, inherited traits, survival skills
  - Classify and characterize: fish, amphibians, reptiles, birds, mammals
  - Explore helping animals, sea animals, desert animals
- Plants
  - Key vocabulary: inherited traits, photosynthesis
  - Explore plants of the desert, forest and sea
- Anatomy
  - Key vocabulary of the Digestive System: salivary glands, esophagus, stomach, liver, small and large intestine
  - Key vocabulary of the Excretory System: kidneys, bladder, urethra, anus

Earth Science
- Rocks and Minerals
  - Characterize the differences between rocks and minerals
  - Classify rocks into sedimentary, igneous, and metamorphic
- Weather and Climate
  - Weather patterns and predictions
  - Characteristics of various climates

Physical Science
- Heat
  - Key vocabulary: energy, convection, conduction, radiation
  - Sources of Heat: geothermal, nuclear, solar
- Light
  - Key vocabulary: colors, mirrors, lenses, convex, concave, plane, prism, spectrum, reflection, refraction
  - Identify how light travels
- Sound
  - Key vocabulary: pitch, vibration, volume
  - Identify how sound travels

Continued on next page
Science

3rd Grade

Physical Science
• Gravity and Its Effects
• Electricity and Magnets
• Physical Properties of Matter
  • Key vocabulary: size, shape, weight, volume, flexibility, luster, color, texture, hardness, odor, etc.
• Force and Its Effects
• Energy Forms and Sources
  • Key vocabulary: heat, sound, chemical, mechanical, electrical

On SchoolhouseTeachers.com

Life Science
Lapbooking: four-week study of the Rhinoceros; four-week study of the Giant Panda; four-week study of the Florida Manatee
Ditch the Desk: single unit on Birds
Wildlife Adventures: one-week study on dolphins; one-week study on manatees; one-week study on sea lions; one-week study on sea turtles; one-week study on jellyfish; one-week study on sand dollars; one-week study on seashells; one-week study on the American alligator; one-week study on frogs
Curious Science: one-month study on the blue-footed booby; one-month study on the platypus; one-month study on the cave fish; one-month study on the pufferfish; one-month study on the slime eel
Creation Club Science: one-month study on hummingbirds in the Unit Studies and More section
The Real Hummers: single unit about hummingbirds and their design in the Unit Studies and More section
Introduction to Human Body Systems: single unit in the Unit Studies and More section
Animals in Disguise: eBook in the Unit Studies and More section
All About Animals: fourteen self-paced units
A World of Animals: forty-three self-paced units

Our World Book Kids library also has a special feature called World of Animals that allows students to compare two animals as well as read short summaries about an animal (such as you’d find at a zoo exhibit) or read a kids encyclopedia article about the animal.
Our World Book Kids library includes a lesson plan and game about vertebrate and invertebrate animals under Treasure Hunt. It also includes webquests about animals including cats, reptiles, and whales.
Science

3rd Grade

In our World Book Science Power library, you will find lessons on the classification of living things as well as inherited and learned characteristics.

Earth Science
Wondrous Weather: four weekly lessons
Ditch the Desk: four-week unit on Weird Weather and Natural Disasters
Curious Science: one-month study of blue diamonds; one-month study of quicksand
Fun with Gravity and Climate: includes 7 weekly lessons on climate
In our World Book Science Power library, you will find lessons on various types of biomes as well as lessons on weather and weather patterns.

Physical Science
Understanding Light: single unit with experiment in the Unit Studies and More section
Introduction to Physical Science: ten units covering electricity, force and motion, heat, light, magnetism, matter, and sound
Fun with Gravity and Climate: includes 6 weekly lessons on gravity
In our World Book Science Power library, you will find lessons on heat, light, and sound.

Rocks and minerals will be studied in depth in geology in 7th-12th grade, though you may wish to introduce the topic now.
Science

4th Grade

Life Science
- Anatomy
  - Circulatory System: structure and function of the heart, components of blood, types of blood vessels (arteries, veins, capillaries), how blood clots, blood transfusions
  - Respiratory System: process of respiration, structure and function of the lungs, relationship between smoking and lung cancer
- Plants
  - Key vocabulary: basic plant structure, seeds, germination
- Animals
  - Key vocabulary: insects, spiders, reptiles
- God's Provision for Life on Earth

Earth Science
- Weather and Seasons
  - Key vocabulary: cloud formations, barometric pressure, layers of the atmosphere, air pressure, cold and warm fronts, various weather instruments, forecasting
  - Identify causes of weather, seasons, thunder, lightning
- Geology
  - Key vocabulary: core, mantle, crust, plate tectonics, earthquakes, volcanoes, continental drift, mountain formation, rock cycle, soil formation
- Effects of Pollution
- Ocean and the Hydrosphere

Physical Science
- Astronomy
  - God’s design of the Heavens
- Electricity and Magnetism
  - Key vocabulary: current electricity, static electricity, electromagnets, conductors, insulators, series circuit, parallel circuit, electrons, electrical currents, magnetic fields
  - Understand conversion of electrical energy.
  - Identify uses of electricity in daily life and safety precautions and hazards

Science

4th Grade

Physical Science
- Chemistry
  - Key vocabulary: atom, physical and chemical properties, mass, density, elements, compounds, solutions, diluted, concentrated, saturated, protons, neutrons, electrons, mass, matter, weight, solvents, solutes, density, evaporation, melting, condensation, freezing
- Law of Conservation of Energy
- Properties of Water

On SchoolhouseTeachers.com

Life Science
- Lapbooking: four-week study Let’s Look at Tarantulas for upper elementary-middle school; four-week study of the Bengal Tiger for upper-elementary-middle school
- Ditch the Desk: two-week study of Backyard Critters; two-week study of Space
- Wildlife Adventures: one-week study of butterflies
- Bug Science: fourteen-week study of worms and parasites
- Wonderful World of Bugs: four-week study
- Curious Science: one-month study of dung beetles; one-month study of vegetarian spiders; one-month study of zombie fire ants; one-month study of velvet ants; one-month study of the cicada-killing wasp
- Discovering Disgusting Creatures: eight units on various types of animals
- Mammals: eBook in the Unit Studies and More section
- Learning About Animals: eBook in the Unit Studies and More section

In our World Book Science Power library, you will find lessons on the circulator, respiratory, digestive, urinary, endocrine, skeletal, muscular, and nervous systems. You'll also find a study of life cycles in plants and animals including metamorphosis, seed plants, seedless plants, flowering plants, and germination.

Earth Science
- Geology Unit Two: The Geology of Our Natural Parks: sixteen weekly lessons
- Curious Science: one-month study of snow rollers

Our World Book Kids library includes a fun lesson plan all about lightning under Crack the Code and about water purification under Craft Room. It also includes science projects about soil and crystal formation. The World Book Student library includes webquests about the sun and hurricanes.

Science

4th Grade

On SchoolhouseTeachers.com (cont.)

Earth Science (cont.)
Experiencing Weather: five stand-alone unit studies that explore various weather phenomena

Physical Science
Everyday Astronomy: 180-day study divided into short lessons that can be combined to cover less time or done in a small dose each day
Creation Club Science: one-month study of the moon; one-month study of the earth in the Unit Studies and More section
Introduction to Mixtures and Solutions: single unit in the Unit Studies and More section
The Shocking Truth About Electricity: single unit in the Unit Studies and More section that introduces conductors and circuits with experiments
Our World Book Kids library includes a fun lesson plan about using the sun to tell time and about constellations under Craft Room.
In our World Book Science Power library, you will find lessons on various types of the cycles of change (sun, moon, and seasons), acids and bases, and mixtures and solutions. You'll also find several lessons on electricity, circuits, and magnetism.

Exploring God's World with Fourth Grade Science: thirty-six weekly lessons covering many of the topics listed
Science

5th Grade

Life Science
- Plants and Animals
  - Key vocabulary: ecosystems, food chains, food webs, five kingdoms and subdivisions, bacteria, mold, fungi
- Oceanography
  - Key vocabulary: continental shelf, slope, rise, abyssal plain, mid-ocean ridge, trench, currents, waves, high and low tides, saltwater, freshwater, water pollution, oceanic life zones, Gulf Stream
- Botany
  - Key vocabulary: vascular and nonvascular plants, reproduction in plants, photosynthesis, anatomy of flowers and fruit, seed and fruit production, spore bearing plants, flowering and nonflowering plants, parts of plants, methods of pollination
- Biology and Anatomy
  - Key vocabulary: cell theory, cells of plants, cells of animals, cells of bacteria, cellular organelles, tissues, organs, systems
  - Understand the function and processes of the respiratory system
  - Understand the function and processes of the circulatory system

Earth Science
- Geology
  - Key vocabulary: geosphere, hydrosphere, atmosphere, biosphere, rocks, minerals, crystals
  - Characterize the six crystal systems, classification of rocks, sources of various types of rocks

Physical Science
- Astronomy
  - Key vocabulary: orbit, rotation, gravitational forces
  - Identify patterns and movements in the Solar System
- Chemistry
  - Key vocabulary: atoms, subatomic particles, electron shells, molecules and compounds, protons, neutrons, electrons, periodic table, atomic number, atomic symbol, metals, alloys, chemical, Teflon, Kevlar
  - Understand the Law of Conservation of Matter
  - Understand chemical and physical properties of matter
  - Recognize chemical processes in everyday life
Continued on next page
Science

5th Grade

Physical Science

- Forces and Motion
  - Key vocabulary: potential energy, kinetic energy, distance, rate, acceleration, gravity, velocity, inertia, acceleration
  - Understand Newton’s Law of Motion

On SchoolhouseTeachers.com

Life Science

**Daily Discoveries**: four-week unit on pond life; four-week unit on the seashore; four-week unit on forest life; four-week unit on the desert

**Nature/Outdoors**: four-week study of ponds; four-week study of fungi; four-week study of lichens and mosses

**Curious Science**: one-month study of red tides; one-month study of rogue waves; one-month study of whirlpools

**Introduction to Life Science**: nine self-paced units covering cells to organ systems, circulatory system, digestive and urinary systems, nervous system, respiratory system, skeletal and muscular systems, plant structure and classification, cell cycle, and traits and heredity.

Students may enjoy a plant cell craft unit in **Hands-On Learning Activities Through Crafts**.

Our **World Book Kids library** includes science projects about microscopic life. The World Book Student library includes a **webquest** about plant and animal cells. In our **World Book Science Power** library, you will find lessons on plants and animal cells as well as a number of lessons on ecology and ecosystems.

Physical Science

**Introduction to Physics**: eighteen weekly lessons

**Scientific Method**: six weekly lessons

**Curious Science**: one-month study of “solar max” **Learning About the Sun, Moon, Planets, and Stars**: eBook in the Unit Studies and More section

In our **World Book Science Power** library, you will find lessons on elements and properties of matter as well as forces, energy, and motion.

**Exploring God's World with Fifth Grade Science**: thirty-two weeks covering plants and animals (life science), metals vs. non-metals (earth science), and matter and elements (physical science), and more.

The botany topics listed are discussed in depth in Botany (suggested for 7th grade, but can be done earlier if your student is ready).
Science

6th Grade

Explore famous scientists, inventions and discoveries as the following areas are studied.

Life Science
• Plants and Animals
  • Key vocabulary: algae, fungi, microbes, coexistence, cooperation, competition, symbiosis
• Anatomy
  • Key vocabulary: antigens, antibodies, bacteria, viruses, heredity
  • Understand the function and processes of the Nervous System
  • Understand the function and processes of the Immune System
  • Understand the function and processes of the Lymphatic System
  • Familiarization with major diseases

Earth Science
• Geology
  • Key vocabulary: Plate tectonics, Richter Scale, earthquakes, geologic “hot spots”, volcanoes, island chains

Physical Science
• Energy
  • Key vocabulary: solar energy, geothermal energy, heat and atomic/molecular activity, conduction, convection, radiation, simple and complex machines, mechanical energy, friction, density, nuclear energy, radioactivity, reflection, refraction, absorption
  • Understand the relationship between temperature and energy
  • Understand the process of transferring energy by using the following vocabulary: light energy (sunlight), chemical energy (photosynthesis), stored energy (stored sugars), terrestrial and aquatic food webs
  • Understand transformation of light energy into other energy: heat, chemical, electrical, mechanical
• Astronomy
  • Key vocabulary: novas, supernovas, galaxies, pulsars, quasars, astronomical distances
  • Understand Newton’s Universal Law of Gravitation
  • Understand kinds and classification of stars

Continued on next page
Science

6th Grade

Physical Science
- Chemistry
  - Key vocabulary: energy transfer, states of matter, atomic activities, molecular activities, expansion, contraction, equilibrium, distillation, boiling and freezing points

On SchoolhouseTeachers.com

Exploring God's World with Sixth Grade Science: 36 weekly lessons explore life science, earth science, and physical science topics
Scientists A-Z: twenty-six weekly lessons, each on a different famous scientist

Life Science
Curious Science: one four-week study on MRSA
The nervous system is covered in Introduction to Life Science, which is included with the 5th grade resources.
In our World Book Science Power library, you will find lessons on adaptation, survival, competition, symbiosis, environment, and behavior.

Physical Science
Tinkers Club: 9 monthly units
Chemistry: All Things Matter: 12 weekly lessons

Our World Book Student library includes a biography center where students can study astronauts and aviators, leaders in medicine, and more. It also has a webquest about women in science. In the Science Power library, there are articles about a number of famous scientists.

You may also enjoy Marine Biology, a thirty-week course for 6th-10th grade.
Science

7th-12th Grade

There are several ways to approach high school science. Below is a table showing two different tracks a student may follow through upper-level science classes.

<table>
<thead>
<tr>
<th>7th Grade</th>
<th>8th Grade</th>
<th>9th Grade</th>
<th>10th Grade</th>
<th>11th Grade</th>

Life Science
- **Botany**: sixteen weekly lessons
- **Animal Science**: twenty-seven weekly lessons
- **Life Science**: thirty weekly lessons (geared for 9th-10th grade, but younger students with an interest in science may enjoy the challenge)
- **Insects and Spiders**: eBook for 6th-8th grade in the Unit Studies and More section
- **Friendly Anatomy**: The Bovine Skeletal System: thirteen weekly lessons for 9th-12th grade

Earth Science
- **Geology Unit One**: Rocks and Minerals: sixteen weekly lessons
- **Earth Science**: twenty-five weekly lessons

Physical Science
- **Physical Science**: thirty-six weekly lessons

Biology
- **Biology**: thirty-one weekly lessons
- **General Biology by Core Academy**: thirty-two weekly lessons
- **Anatomy & Physiology**: thirty-six lessons
- **Marine Biology**: thirty weekly lessons

On SchoolhouseTeachers.com (cont.)

Chemistry

- **Friendly Chemistry**: twelve weekly lessons
- **Advanced Chemistry**: twenty-five weekly lessons

Physics

- **High School Physics**: thirty-six weekly lessons
Additional Science Resources

**Ditch the Desk**: Week Four (Science) of Test Taking Unit for elementary

**Lapbooking Through Science**: six mini lapbooks for 1st-3rd grade

**Let's Do Science Outside**: 20 worksheets for 1st-4th grade

**Light Studies**: 2 units in Unit Studies and More; all about light for 1st-5th grade

**Chemistry Help**: thirty-six units

**Science Experiments with Jason Lindsey**: easy science experiments you can do with household items

**Science Experiments with World Book**: more than 100 simple science experiments you can do at home

**Diet Pop and Mentos**: downloadable experiment guide in the Unit Studies and More section

**Nature/Outdoors**: four-week study of sand; four-week study of animal tracks; four-week study of the night sky; four-week study of rainbows; four-week study of winter; four-week study of creeks

**The Story of Energy**: e-book in the Unit Studies and More section that explores the discovery of electricity and natural gas, the long road to distributing those resources, the deregulation of the phone system in the past, and what the deregulation of energy may mean for the future

**Kinetic Connections-Science**: parent helps for teaching science

**Focused Learning Center-Science**: round up of all science resources on the site

**Monthly Book Lists**: see lists of books on physical science fun, fun with life science, nature exploration, and science
Additional Resources for Elementary

Ditch the Desk

Enjoy this Ditch the Desk unit all about spring!

Lapbooks

Enjoy this lapbooking unit as you study Philemon.

Kinetic Connections

Enjoy this series of teaching ideas for holidays, seasons, and special occasions.

Unit Studies and More

Don’t miss the unit studies on Following the Iditarod, From Tree to Table: A Maple Syrup Story, and The Appalachian Trail in our Unit Studies and More section. You can also find the Test Your Knowledge Quiz Bank, Brain Teasers, Brain Ticklers, On the Move, Tough Trucks, Cranberry Christmas, and A Bouquet of Valentine’s Day Fun in our Unit Studies and More section.

Daily Puzzlers

Daily Puzzlers are language-based logic puzzles that vary in difficulty and include puzzles for 2nd through 12th grade.
